Aesthetics of Displacement Ozlem Koksall,2016-01-28 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Displacement does not only have an effect on groups and individuals ways of relating to their identity and their past but the knowledge and experience of it also has an impact on its representation Looking at films that represent the experience of displacement in relation to Turkey s minorities Aesthetics of Displacement argues that there is a particular aesthetic continuity among the otherwise unrelated films Ozlem Koksall focuses on films that bring taboo issues concerning the repression of minorities into visibility arguing that the changing political and social conditions determine not only the types of stories told but also the ways in which these stories are told Focusing on aesthetic and narrative continuities the films discussed include Ararat Waiting for the Clouds and Once Upon a Time in Anatolia among others Each film is examined in light of major historical event s and their context political and social as well as the impact these events had on the construction of both minority and Turkish identity **A Quest for Equality**,2007 Though Turkey is a land of vast ethnic linguistic and religious diversity home not only to Turks Kurds and Armenians but also among others Alevis Ezidis Assyrians Laz Caferis Roma Rum Caucasians and Jews the history of the state is one of severe repression of minorities in the name of nationalism This report sets current law and practice in Turkey against the backdrop of equivalent international standards on linguistic rights of minorities freedom of religion thought and conscience freedom of expression freedom of assembly and association political participation property rights and anti discrimination

Forgotten or Assimilated? Minorities in the Education System of Turkey Nurcan Kaya,2009-03-16 Since the Turkish Republic was established in 1923 minorities have been perceived as a threat to the indivisible integrity of the state with its territory and nation enshrined in the Turkish Constitution This has had a grave impact on generations of minorities in accessing their fundamental rights in Turkey including their education rights Many members of minority communities feel that the Turkish education system works to assimilate them Turkish identity and nationalism are promoted as fundamental values while distinct minority cultures history and religions are ignored Because of the discrimination harassment and humiliation that children from minority communities face they often hide their ethnic and religious identities While Turkey has ratified many relevant international treaties it has put reservations on provisions that are relevant to minorities rights and their right to education The European Union accession process has had some positive impact the education rights of minorities in Turkey but much remains to be done Many teachers and workers in minority NGOs have been interviewed for this report which looks in detail at the issues of language religion and discrimination in education It concludes with a series of detailed recommendations for the Turkish government and the EU Minorities and Nationalism in Turkish Law Derya Bayir,2016-04-22 Examining the on going dilemma of the management of diversity in Turkey from a historical and legal perspective this book argues that the state s failure to accommodate ethno religious diversity is attributable to the founding

philosophy of Turkish nationalism and its heavy penetration into the socio political and legal fibre of the country It examines the articulation and influence of the founding principle in law and in the higher courts jurisprudence in relation to the concepts of nation citizenship and minorities In so doing it adopts a sceptical approach to the claim that Turkey has a civic nationalist state not least on the grounds that the legal system is generously littered by references to the Turkish ethnies and to Sunni Islam Also arguing that the nationalist stance of the Turkish state and legal system has created a legal discourse which is at odds with the justification of minority protection given in international law this book demonstrates that a reconstruction of the founding philosophy of the state and the legal system is necessary without which any solution to the dilemmas of managing diversity would be inadequate Adopting an interdisciplinary approach this timely book will interest those engaged in the fields of Middle Eastern Islamic Ottoman and Turkish studies as well as those working on human rights and international law and nationalism
