is designed to support instructors by providing a rigorous introduction to the technical scope of this subject. With a coherent approach to its multifarious nature the book covers all of the essential technical ground with full awareness of the design cultural and usability aspects of multimedia. This book will inspire students to develop the potential of multimedia for new forms of expression that are enabled by computers and networks. Concepts Covered Descriptions of the characteristics of individual media provide the essential starting points for understanding how to combine them. Graphics, text and time based media are introduced in the context of their digital representation and manipulation. The combination of media within the different frameworks of hypermedia and time based authoring is described. Interactivity through scripting and the communications technology that supports distributed multimedia are explored in detail. Hardware, software and networking capabilities are thoroughly detailed with the backup of motivating and illuminating examples. All this and still the excitement of creating multimedia is conveyed making this as rich and rewarding a book as the subject itself. Support for Practice through Principles and Theory. Digital Multimedia makes reference to the common tools and applications used for production and manipulation of media but a companion text in development Digital Media Tools due in Spring 2001 addresses the effective use of these packages in more detail.

Getting Started Deborah Morley, 1999 Over the last few years Internet and World Wide Web use has skyrocketed and consequently many are interested in developing a Web site for personal or business use. Though creating a Web site has in the past been very complicated and primarily left to computer professionals the introduction of Web publishing programs such as Microsoft FrontPage 98 has made Web site creation a possibility for almost anyone. While many computer books are enormous and difficult to read Getting Started Web Page Design with Microsoft FrontPage 98 is concise and readable. It begins with the essential information a Web page designer needs to become familiar with the World Wide Web and basic Web page design fundamentals and then covers how to create complete Web sites all in six concise chapters.

Student Manual and Data Axzo Press Axzo Press, 2005-05 This ILT Series course will teach students how to use Adobe Acrobat 7.0 Standard to create, modify and review PDF documents. Students will learn how to convert a variety of document types to PDF, edit, arrange and extract pages, create and modify bookmarks, apply document security, initiate and manage a review and apply digital signatures. Students should be comfortable using a personal computer and Windows XP but should have little or no experience using Acrobat 7.0.
