

## Before you begin

Thank you for purchasing the Bose® Wave® radio.

Customized to support the Bose Corporation's long-standing tradition of superior sound, this portable speaker technology, which you named "Wave" at the time of the Consumer Choice Awards, is now here.

Using this technology, it takes virtually anything away from a small loudspeaker to the outside air over a wide range of frequencies. That's how it is the only truly portable speaker made for clear, crisp, wrapping, two-channel audio to produce music being heard as if it were live.

### Features

See Wave radio and manual.

- Integrated system design for superior quality without component adjustments
- A high-performance stereo tuner — offers up to 5 AM and 5 FM station presets
- Two independent clocks, with battery backup power for reminder settings
- A credit card size remote control with recording time preview
- Input for an additional sound source, such as a CD or tape player

Please take the time to follow the owner's guide carefully. It helps you set up and operate your radio and enjoy all of its features and high-fidelity sound.

## Setting Up

### Unpacking the radio

Check the inside your radio. Look at packing materials for possible future use. The original packing materials protect the radio and its internal parts. Wave® radio may contain the original packing materials. Do not discard them. Do not use them. Customer Service cannot help you return materials to the manufacturer.

Check for your Wave radio number. The radio number is printed on the back of the radio.

1. **Note:** Check the serial number on the bottom of your radio. Write the serial number on the back of the radio and keep it safe.

### Selecting a location for your radio

Please read these guidelines to select a location for your radio.

- Place the radio on a table or other flat surface.
- Do not use the radio in a damp location. It is important to prevent moisture from getting into the unit.
- Do not place it on a metal surface or table that causes interference with AM reception.
- Since all electronic equipment generates some heat, do not place it on a heat sensitive surface.
- If you use the radio with your television or VCR, do not place it directly in front of the television. It may interfere with the picture quality.
- A wooden surface may help if a radio is recommended for best sound performance.
- You get the maximum sound from your radio if you are able to place the radio across the room from where you will be listening.

Please adjust the location to get the sound you prefer.
