Frechette, Edwin H. Boswell, 2010-06-01 Only 30 percent of strategic initiatives are

successfully executed Of those that are most CEOs view the process as too slow What s going on And how can you accelerate execution in your company In *Strategic Speed* the authors provide the answers Start by understanding the barriers to execution Employees don t grasp where an initiative is going They don t adopt new behaviors They re not committed to working together to achieve results Most leaders try to speed things up by changing processes or installing new technologies But better processes and systems won t remove the barriers Instead you need to unleash three people factors clarity understanding the goal unity collaborating across work groups and agility adapting quickly The authors explain how to unleash these factors by exercising four leadership abilities Affirming strategies Ensuring everyone knows the destination and wants to go there Driving initiatives Accelerating projects called for by your strategy Managing climate Controlling what it feels like to work in your team Cultivating experience Harnessing employees knowledge and expertise *Strategic Speed* provides real world examples from companies as diverse as Tata Sky Thermo Fisher Scientific Ameriprise and Fender Guitars showing these practices in action And it s packed with tools and assessments for diagnosing where your execution efforts are in trouble and choosing specific actions for accelerating results in your firm     Strategy Execution James Smith,2023-02-22

*Strategy Execution* William R. Bigler,Jr. With Marilyn Norris,2008-01-01 Strategy execution has far more potential for value creation than does strategy formulation This book offers a complete tool kit to help firms achieve world class strategy execution status It focuses on initiative management aligning executive operating and support processes with market rhythms the seven stages of business growth and time phasing initiatives with the competitive realities of the firm s environment It also demonstrates how to track the ripple effects of change throughout the organization Numerous exhibits portray tools that can be used by firms to develop world class strategy execution prowess A glossary of new terms and new definitions of familiar terms is included along with a diagnostic survey that a firm can use to assess its current status regarding its world class strategy execution abilities The authors also provide a 10 S model of management imperatives that updates the McKinsey 7 S model from the 1980s If a firm has been bogged down for too long in strategy formulation now is

the time to begin the execution phase using this book as a starting point will give any organization the advantages it needs to launch this initiative successfully

*Future Screening* Marc K. Peter, 2011 Foresight that is the ability to foresee how the future will unfold is a desirable management capability which can be developed through engaging with strong and weak signals in the emerging environment The foresight process provides strategic guidance through identifying critical turning points in the evolution of the environment The importance of foresight in strategy development will increase as the likelihood of market pressure and dynamics remains the same or even increases which will lead to stronger competition and a need for long term innovative planning capabilities The literature does not provide an overall best practice foresight framework as the investigations that have been completed are specifically focussed on weak signals management environmental scanning strategy adaptation or scenario management or a combination of the above Having examined existing literature on strategic planning strategic thinking envisioning and innovation it is evident that an integrated strategic foresight framework from signals collection to scenario building and strategy implementation has not yet been built and the impact of this approach on business practice is yet to be articulated The development and empirical investigation of a contemporary foresight driven approach to strategy development is the core of this research project Based on the conclusion from the literature review the research question can be formulated as how and why can strategic foresight based on the integration of strong and weak signals methodologies enrich the strategy process in a dynamic and changing environment Or in other words how does a contemporary best practice framework for advancing strategic corporate foresight need to be designed so it is applicable and value generating in a real business environment Abstract p 7
