**Regional Development in Australia** Robyn Eversole,2015-12-22 In Australia regions are not just geographic locations they are also cultural ideas Being regional means being located outside the nation's capital cities and in the periphery of its centres of power and influence Regional development in Australia is thus significantly different than its European or American counterparts However surprisingly little has been written about the unique dynamics of development in Australia's regions this book has been written to fill this gap In recent decades the Australian government has made repeated policy efforts to achieve sustainable development in its non metropolitan areas Over the same period those who live and work outside the nation's capital cities have come to identify as regional Australians This book takes an anthropological approach to understanding the particularities of regional development in Australia It draws upon rich on the ground observations of towns industries universities development organisations and communities across different settings to provide an in depth understanding of the subject This book will be of interest to researchers and practitioners concerned with regional development and policy

**China's Naval Power** Yves-Heng Lim,2016-05-23 The rapid modernization of the Chinese Navy is a well documented reality of the post Cold War world In two decades the People's Liberation Army Navy has evolved from a backward force composed of obsolete platforms into a reasonably modern fleet whose growth is significantly shaking the naval balance in East Asia The rationale behind China's contemporary rise at sea remains however difficult to grasp and few people have tried to see how the current structure of the international system has shaped Chinese choices This book makes sense of Chinese priorities in its naval modernization in a robust offensive realist framework Drawing on Barry Posen's works on sources of military doctrine it argues that the orientation of Beijing's choices concerning its naval forces can essentially be explained by China's position as a potential regional hegemon Yves Heng Lim highlights how a rising state develops naval power to fulfil its security objectives a theoretical perspective that goes farther than the sole Chinese case

**Environmental Justice and Land Use Conflict** Amanda Kennedy,2017-07-28 Conflict over the extraction of coal and gas resources has rapidly escalated in communities throughout the world Using an environmental justice lens this multidisciplinary book explores cases of land use conflict through the lived experiences of communities grappling with such disputes Drawing on theories of justice and fairness in environmental decision making it demonstrates how such land use conflicts concerning resource use can become entrenched social problems resistant to policy and legal intervention The author presents three case studies from New South Wales in Australia and Pennsylvania in the US of conflict concerning coal coal gas and shale gas development It shows how conflict has escalated in each case exploring access to justice in land use decision making processes from the perspective of the communities at the heart of these disputes Weaknesses in contemporary policy and regulatory frameworks including ineffective opportunities for public participation and a lack of community recognition in land use decision making processes are explored The book concludes with an examination of possible procedural and

institutional reforms to improve access to environmental justice and better manage cases of land use conflict Overall the volume links the philosophies of environmental justice with rich case study findings offering readers further insight into both the theory and practice of land use decision making *Tools for Assessing Family Relationships* Marialuisa Gennari,Stephen Edward Finn,Alessandra Santona,Giancarlo Tamanza,2025-05-21 Recent evidence from clinical practice and research in the field of Clinical Family Psychology highlights the importance of finding reliable tools and methods for assessing couple and family relationships Expectations from both clinical services and academics are that professionals can collect reliable information on family relationships even if in daily clinical practice this information is underutilized These expectations could be fulfilled by the common use of validated measures tools and methods that guarantee reliable data about family relationships However practitioners infrequently use these kinds of measures tools and methods either because of a lack of knowledge or because the tools are not readily accessible Clear instructions on how to properly assess couple family relationships within daily clinical practice are needed especially since psychologists work in different clinical settings and treat different populations **Choice** ,2007 Backpacker ,2007-09 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured
