## **Paddling The Wild Neches:**

**Paddling the Wild Neches** Richard M. Donovan, 2006-05-16 From its origins on a sandy hillside in Van Zandt County the Neches River flows through the heart of East Texas. In its watershed lies some of the wildest country in Texas tucked amid the remains of one of the finest hardwood forests in the world. With the goal of keeping the Neches flowing free, East Texas native and riverman Richard M. Donovan takes readers canoeing down a two hundred mile stretch of the upper Neches. Through two national forests and mile after mile of remote river woodlands he chronicles the river's natural and cultural history, describes its animal inhabitants, recounts stories of early settlers and East Texas hunting traditions, and calls attention to the recreational potential of the river for paddlers and others, whether residents or visitors. Donovan also makes a case against damming the river. He convincingly promotes the idea of turning the Neches into a National Wild and Scenic River, preserving forever the river's natural flow and what remains of the verdant bottomlands of this historic watercourse. One might float the diminutive Comal River, argued to be the shortest river in the world. Another might dig deep and follow the four day, 260 mile route of the Texas Water Safari, which Canoe Kayak Magazine referred to as The World's Toughest Canoe Race. Whitewater is here, too. Lakes are as well. And the Texas Gulf Coast is home to sandy beaches, knobby mangroves, and sea grass flats. Meanwhile, Texas is home to some of the fastest growing cities in America. And paddling is the fastest growing outdoor sport in the country. *Paddling Texas* is a guide for those who are new to either, and all those who love both. Featured trips offer easy access, secure environments, good facilities, great fishing, superb wildlife viewing, and beautiful scenery. *Paddling Texas* gives recreational paddlers and anglers all the information they'll need to paddle many of the best trips in Texas. **The Texas Legacy Project** David A. Todd, David Weisman, 2010-09-15 A city dweller's vacant lot. A rancher's back forty. A hiker's favorite park. When the places that we love are threatened, we can be stirred to action. In Texas, people of all stripes and backgrounds have fought hard to safeguard the places they hold dear. To find and preserve these stories of courage and perseverance, the Conservation History Association of Texas launched the Texas Legacy Project in 1998, traveling thousands of miles to conduct hundreds of interviews with people from all over the state. These remarkable oral histories now reside in an incomparable online and physical archive of video, audio, text, and other materials that record these extraordinary efforts by veteran conservationists and ordinary citizens to preserve the natural legacy of Texas. This book holds stories from more than sixty people who represent a variety of causes, communities, and walks of life, from a West Texas grocer fighting nuclear waste to an Austin lobbyist pressing for green energy. Each speaks from the heart in personal reminiscences and first-hand accounts of battles fought for land and wildlife, for public health, and for a voice in media and politics. These impassioned accounts remind

us of the importance of protecting and conserving the natural resources in our own backyards wherever they may be Records of the archive are available at the Briscoe Center for American History at the University of Texas at Austin Five dollars of the cost of this book goes to environmentally friendly materials and processes **Texas Parks & Wildlife** ,2012 **The Texas Landscape Project** David A. Todd,Jonathan Ogren,2016-06-14 The Texas Landscape Project explores conservation and ecology in Texas by presenting a highly visual and deeply researched view of the widespread changes that have affected the state as its population and economy have boomed and as Texans have worked ever harder to safeguard its bountiful but limited natural resources Covering the entire state from Pineywoods bottomlands and Panhandle playas to Hill Country springs and Big Bend canyons the project examines a host of familiar and not so familiar environmental issues A companion volume to The Texas Legacy Project this book tracks specific environmental changes that have occurred in Texas using more than 300 color maps expertly crafted by cartographer Jonathan Ogren and over 100 photographs that coalesce to fashion a broad portrait of the modern Texas landscape The rich data compiled by author David Todd are presented in clearly written yet marvelously detailed text that gives historical context and contemporary statistics for environmental trends connected to the land water air energy and built world of the second largest and second most populated state in the nation An engaging read for any environmentalist or conscientious citizen The Texas Landscape Project provides a true sense of the grand scope of the Lone Star State and the high stakes of protecting it To learn more about The Meadows Center for Water and the Environment sponsors of this book s series please click here *Viva Texas Rivers!* Steven L.
