fees and funding to the realities of what to expect when you get to University and what it's like on placement. With valuable contributions from current students, academics and educators, this book explains everything you need to know and might not have thought you needed to know before you apply. Mark Nevins, Senior Lecturer, Teesside University, UK and NMC Registered Adult Nurse and HCPC Registered Paramedic. I would consider this book as required reading for anyone considering embarking on a career as a paramedic. It is honest, informative and true to life. I liked the way that all aspects of student life were covered from applications to studying and placements and finally being out in the world. This job isn't what a lot of people seem to think it is, but Amanda has gone to great lengths to myth-bust. This book shows a depth and consideration that all prospective paramedic students should appreciate. It is clear that a great deal of effort has gone into this survival guide. Mark Young, Paramedic covering a number of areas that are part of the institutional and ambulance Trusts inductions. It is useful to note that the Survival Guide also recognises the differences the student paramedic experiences when compared to other students in universities. This means that the Survival Guide can act as an aide memoire that is available when those difficult questions come up that need an immediate answer that can allay fears and anxieties and signpost the students to the places they can get support. This aspect is helped by the shared experiences from past and present students and practitioners who act as mentors and paramedic educators to the students. This book has been a long time coming and will, based on my experience, help the student to have a better transition towards their future professional role. Lizzie Ryan, Education Business Manager and Clinical Training Manager East at South Western Ambulance Service NHS Foundation Trust, UK, also Lecturer at Bournemouth University, UK and Plymouth University, UK and the Open University, UK. *Paramedic Review Manual for National Certification* Stephen J. Rahm, 2003-06. This four-section guide is designed to prepare the Paramedic candidate for the NREMT written and practical examination processes.

Law and Ethics for Paramedics Georgette Eaton, 2022-04-01. Law and Ethics for Paramedics is the first book which really grapples with the application of law and ethics in the unique situations that paramedics and other prehospital professionals find themselves. The book is clear, concise and eminently readable but most of all useful to operational ambulance clinicians and their managers. Tim Kilner, Senior Lecturer in Paramedic Science, University of Worcester, UK. Written by paramedics for paramedics, this resource provides you with all the key information you will need to know as you navigate your way through the often tricky and complicated area of law and ethics in paramedic practice. Eleven contributing authors, each with their own perspectives and clinical backgrounds, explain the essential principles and apply these across the whole of the UK. Chapters cover a range of topics including Information governance, Mental capacity, Clinical negligence, Paramedic use of social media, Assessment and treatment of children, Medicines management. Each topic is broken down into practical chunks with many chapters supported by case studies to help relate the content to paramedic practice. Sixteen case studies on topics from resuscitation to consent and useful top tips will help you develop, reflect on and consider your own ethical practice. The law and how it relates to your practice can be

complex but with the help of this handy guide you will quickly gain confidence and insight into the legislation surrounding this vital aspect of paramedic practice **Manual of Clinical Paramedic and Pre-Hospital Procedures 2E**
