Sound Advice

Jean Ashworth Bartle,2003-03-06 Sound Advice is a valuable resource for college students beginning teachers and

experienced conductors of children s choirs It covers the vast array of skills needed by today s conductor and will benefit all choir directors who want their choirs to reach a higher level of artistry This book will be useful on many levels for the college student studying the child voice and elementary teaching methods for the teacher beginning to direct choirs in schools synagogues churches and communities for experienced children s choir directors who wish to know more about orchestral repertoire for treble voices conducting an orchestra and preparing a children s choir to sing a major work with a professional orchestra The underlying educational philosophy is sound the author sees development of musicianship through singing as the primary goal of a children s choir program This philosophy differs dramatically from the traditional concept of the conductor as all knowing and the singers as receptacles An outstanding aspect of the book is how the author leads the reader to an understanding of how to teach musicianship Developing literacy in the choral setting is a mysterious amorphous process to many conductors but the author clearly outlines this important process with practical suggestions well documented examples and a clear reading style which will reach readers on many levels The comprehensive repertoire skill building sheets and programs for all types of children s choirs will provide teachers with immediate and highly valuable resources

Fame, 1897 *Flyer'dam* Gyz la La Rivière, Fleur Kolk, 2007 Collecting more than 2 000 fliers and posters for Rotterdam nightlife and cultural events Flyer dam reads like a

catalogue raisonn for the design history of that city s now infamous clubbing scene of the past 30 years but without the pedagogy Flyers and posters for parties events and concerts from the 1980s through today are reproduced in giddy spreads that sometimes capture as many 20 vibrant items of ephemera per page The rise of house acid gabber illegal parties and R

and B as well as techno drum n bass hip hop breakbeatz the alternative scene and art pop parties are all documented here along with profiles of clubbers mainly young and urban and trends in graphic styles typographies and influences This

collection of club flyers reflects a penchant for design and pop culture in general with visual references as disparate as Japanese manga 1960s psychedelia PlayStation Dutch pornography and Bauhaus philosophy However with the development of new digital techniques it is also interesting to track the directions designers are taking with more appropriated imagery from the Internet and of course more computer generated artwork in general Aside from providing an exhaustive history of

recent popular graphic design in the Netherlands Flyer dam celebrates the culture of international youth in an exuberant
