SellWave Audio,2025-10-30 The Hundred Year Marathon exposes the hidden strategy driving China's rise and reveals how U.S. policies and assumptions have often unwittingly helped advance that goal Michael Pillsbury a leading China expert with decades of service in senior U.S. national security positions draws on interviews with Chinese defectors and newly declassified documents to demonstrate that China's China Dream aims to supplant the United States as the world's dominant power by 2049 the centennial of the People's Republic Contrary to the U.S. expectation of cooperation and diplomacy Pillsbury shows that traditional Chinese statecraft and long term strategic planning underpin a deliberate effort to replace America without direct military confrontation The book details how the U.S. through engagement trade and technological exchanges has facilitated China's growth in science military capabilities and global influence often misreading Chinese intentions Pillsbury translates speeches documents and writings from China's military and intelligence leadership to reveal a worldview in which American leaders are seen as naive actors inadvertently aiding their own decline He illustrates the interplay between China's long term planning and the missteps of U.S. policymakers providing a nuanced understanding of global power dynamics By uncovering the methods mindset and long term goals behind China's ascent Pillsbury challenges the reader to rethink conventional assumptions about international relations and strategy He argues that a recalibration of U.S. policy is necessary one grounded in the realities of China's ambitions rather than wishful thinking The Hundred Year Marathon is both a historical analysis and a strategic call to action presenting a comprehensive framework for understanding the Chinese challenge and the urgent need for a more competitive American approach Ultimately the book serves as a wake up call to policymakers business leaders and the public emphasizing that understanding China's deliberate century long plan is essential for ensuring the United States retains its position in the global hierarchy and avoids strategic complacency

Borderless by Design Troy E. Nehls,2024-01-09 In his previous book The Big Fraud Congressman Troy Nehls exposed the deep corruption perpetrated by the Democrats in the 2020 election Now in Borderless by Design he examines what's really happening with the Biden administration's destruction of America's southern border The Democrats and their deep state supporters want to cement permanent political power in Washington DC Having turned their backs on their traditional voters middle class blue collar Americans the Democrats have a desperate need to replenish their voter base That's why the Biden administration purposely acting against the Constitution and our country's laws is flooding our border with illegals Regardless of the harm done to America and to illegals themselves Democrats consider the power grab worth the collateral damage If that weren't bad enough the Democrats open border policies also aid and abet those who are trying to destroy America from George Soros and Davos Man to China and the Mexican drug cartels **Ten Questions: American Misunderstandings about China** China Institutes of Contemporary International Relations CICIR,2020-01-31 The rise of China is perhaps the greatest historical event in the contemporary world Therefore to explore and understand the rise of

China is the most important task of the times In the discussion of China s rise various theories of China Threat China Collapse and China Responsibility have emerged in the western world Certain specious arguments have filled the US policy circle and the public Some made simple grafts and bold revisions on history producing the fallacy of America rebuilding China Some purposefully switched the concept distorting the great historical process of the rejuvenation of the Chinese nation into a well planned Hundred Year Marathon that aims to replace the US hegemony While reluctant to judge the above interpretations as fabricated out of thin air we would rather take them as misunderstanding or misreading due to the lack of in depth knowledge on complex China This essay collection restores the facts as they are or rather presents opinions from the perspective of Chinese scholars In doing so we seek not to persuade or convince anyone but to make Chinese voices heard in a truthful objective and rational way and look forward to further discussions

Why Is The China Model Losing Its Power? - Challenges And Opportunities Of The Second Global Competition Jinghao Zhou,2020-07-23

History has proved that communism failed at many levels during the first global competition between the capitalist and socialist camps during the Cold War As a result the socialist camp was dissolved China is one of the few communist countries to survive in the twenty first century The Chinese economy was on the verge of collapse in the 1970s but began to take off in the early 1980s guided by the China model China became the world s second largest economy in 2010 and has quickly expanded its enormous global market and political influence The second global competition between the capitalist countries and China has started The second global competition is in fact between the China model and the Washington Consensus Will Western hegemonies end as the result of the second global competition Will China be able to rewrite the international rules Will the Chinese communist political system collapse during the competition What should the West do to the China model This book will explore the implications of the China model in the context of the second global competition and argues that the downturn of the China model and China s global expansion are the two sides of the same coin The China model is losing its power but not broken China would be able to become even stronger if it could reshape the philosophical foundation of the China model The future of Western hegemony will depend on how the West understands the China model and deals with it This book addresses these aspects and more

Wake Up America David R. Stein,2020-11-11 Few people living in the US today have any real appreciation or understanding of the wholesale sociopolitical changes which have occurred in the US just since the Vietnam War to say nothing about the pre Vietnam War era Until recently the changes have been insinuated into US society

so gradually few realize that a significant majority of the changes are so antithetical to fundamental US constitutional principles and values that they threaten the very survival of the US as a constitutional democratic republic Engineered as they were by a covert insidious and subversive Neo Marxist campaign which has been steadily and stealthily growing in the US for more than one hundred years many of the changes have been deliberately designed to foment social discord dysfunction and instability through ethnic identity politics and race baiting designed to pave the way for a full fledged social

revolution in which the US constitutional democratic republic would be replaced by a Neo Marxist autocracy The US now faces the distinct possibility of sliding into another bloody civil war or into anarchy and chaos followed by installment of a Neo Marxist autocracy To prevent both of those possibilities significant changes must be made to the US Constitution as well as to civil corporate and criminal laws If nothing is done millions of freedom loving US citizens their children and grandchildren will wake up one day to discover that all of their cherished freedoms and liberties have been taken from them It's now quite possible another bloody civil war will be necessary to ensure that in the immortal words of Abraham Lincoln a government of the people by the people for the people shall not perish from the earth *China's Securing, Shaping, and Exploitation of Strategic Spaces: Gray Zone Response and Counter-Shi Strategies* Robert J. Bunker, 2019-12-23 The timing of Dr Robert J Bunker's new SWJ pocket book is apropos given the increasing intransigence of the Chinese Communist Party CCP in both its domestic police state security policies and foreign expansionistic economic and military activities This authoritarian regime bereft of its former Marxist and Maoist ideologies except in name only under the iron fisted leadership of president for life Xi Jinping is increasingly in the news for the many draconian and predatory behaviors and actions in which it is now engaging Dave Dilegge Editor in Chief Small Wars Journal [Naval War College Review](#), 2015 **China's Diplomacy over the Northeast Question Ideologies, Thoughts and Values, 1858 - 1919** Xichao Yu, 2024 This book explores the formation of modern Chinese diplomacy by examining how classical Chinese philosophy influenced diplomatic responses to foreign encroachments in Northeast China or Manchuria during the historical period from the signing of the Treaty of Aigun in 1858 to China's participation in the Paris Peace Conference in 1919 Drawing primarily on Qing dynasty and Beiyang government diplomatic archives and classical Chinese historiography it highlights the role of Confucian based principles in shaping the diplomatic thinking of the Qing dynasty and Beiyang governments Through a top down state centric analysis the research suggests that these traditional Chinese cultural values provided a distinct intellectual and theoretical framework for modern Chinese leaders guiding diplomatic decisions amid foreign incursions and modernisation pressures It underscores the lasting impact of China's traditional cultural knowledge on its diplomatic evolution particularly in resolving the so called Northeast Question [Summary of The Hundred-Year Marathon by Michael Pillsbury](#) Paul Adams / Bookhabits, 2019-01-09 The Hundred Year Marathon China's Secret Strategy to Replace America as the Global Superpower by Michael Pillsbury Conversation Starters China has a plan to take over the United States as a world leader and will fully accomplish this by 2049 when it celebrates its 100th founding anniversary According to Chinese teachings Americans are barbarians who are engineering their own demise The US has unwittingly helped the Chinese achieve their dream of becoming a world power The past forty years have seen America aiding China in its economic development as well as providing military and scientific expertise We believed that American aid to a fragile China whose leaders thought like us would help China become a democratic and peaceful power without ambitions of regional or even global dominance This
