[Troubleshooting Cisco IP Telephony](#) Paul Giralt, Addison Hallmark, Anne Smith, 2002 In The Implosion of Capitalism, world renowned political economist Samir Amin connects the key events of our times: financial crisis, Eurozone implosion, the emerging BRIC nations, and the rise of political Islam, identifying them as symptoms of a profound systemic crisis. In light of these major crises and tensions, Amin updates and modifies the classical definitions of social classes, political parties, social movements, and ideology. In doing so, he exposes the reality of monopoly capitalism in its contemporary global form. In a bravura conclusion, Amin argues that the current capitalist system is not viable and that implosion is unavoidable. The Implosion of Capitalism makes clear the stark choices facing humanity and the urgent need for a more humane global order.
