**Cable Vision**, 1991

**Television Age**, 1962      **The End of College Football** Nathan Kalman-Lamb, Derek Silva, 2024-10-04 In this book

Nathan Kalman Lamb and Derek Silva offer an existential challenge to one of America's favorite pastimes college football. Drawing on twenty-five in-depth interviews with former players from some of the country's most prominent college football teams, Kalman Lamb and Silva explore how football is both predicated on a foundation of coercion and suffused with racialized harm and exploitation. Through the stories of those who lived it, the authors examine the ways in which college football must be understood as a site of harm, revealing how players are systematically denied the economic value they produce for universities and offered only a devalued education in return. By illuminating the plantation dynamics that make college football a particularly racialized form of exploitation, the book makes legible the forms of physical sacrifice that are required, the ultimate cost in health and well-being, and the coercion that drives players into the sport and compels them to endure such abusive conditions. *Scarlet and Black*, 1896 **Football** Michael L. LaBlanc, 1994 Chronicles the evolution of four major U.S. spectator sports: baseball, basketball, football, and hockey. **American Physical Education Review**, 1926 Includes abstracts of magazine articles and book reviews. *Broadcasting in America* Sydney W. Head, 1998 **Financial Management in the Sport Industry** Matthew T. Brown, Daniel A. Rascher, Mark S. Nagel, Chad D. McEvoy, 2021-04-07 Now in a fully revised and updated third edition, this essential textbook introduces the fundamentals of sport finance and sound financial management in the sport industry. It is still the only textbook to explain every aspect of finance from the perspective of the sport management practitioner, explaining key concepts and showing how to apply them in practice in the context of sport. The text begins by covering finance basics and the tools and techniques of financial quantification, using industry examples to apply the principles of financial management to sport. It then goes further to show how financial management works specifically in the sport industry. Discussions include interpreting financial statements, debt and equity financing, capital budgeting, facility financing, economic impact, risk, and return, time value of money, and more. The final part of the book examines financial management in four sectors of the industry: public sector, sport, collegiate athletics, professional sport, and international sport. It provides an in-depth analysis of the mechanics of financial management within each of these sport sectors. Useful features such as sidebars, concept checks, practice problems, case analysis, and case questions will help students engage more deeply with financial techniques and encourage problem-solving skills. This new edition includes a completely new chapter on international sport, reflecting the globalized nature of the modern sport industry, as well as expanded coverage of current issues such as digital media finance, recent legal cases affecting collegiate sport, and the central importance of collective bargaining. *Financial Management in the Sport Industry* is an essential textbook for any undergraduate or postgraduate course in sport finance and an invaluable supplement to any course in sport business or sport management. It is also an important reference for all sport management practitioners looking to improve their understanding of finance. The book is accompanied by updated and expanded ancillary materials, including an instructor's manual, PowerPoint slides, and an image bank. *ESPN College Football Encyclopedia* Michael MacCambridge, 2005-09 The most
