about it There is the official story and then there is another involving local groups and AIDS activists Going back to early government and activist attempts to spread information Patton traces a slow separation between official advice and that provided by those on the front lines in the battle against AIDS She shows how American anxieties about teen sex played into the nation's inadequate education and protection of its young people and chronicles the media's attempts to encourage compassion without broaching the touchy subject of sex or disrupting the notion that AIDS was a disease of social and sexual outcasts Her overview of the relationship between shifting medical perceptions and safe sex advice reveals why radical safe sex educators eventually turned to sexually explicit including pornographic representations to spread their message and why even these extreme tactics could not overcome the misguided national teaching on AIDS Patton closes with a stirring manifesto an urgent call to action for all those who do not want to see the hard lessons of AIDS education and activism wasted or with these lessons the loss of so many more lives *Cinema Canada* ,1976 Broadcasting & Cable ,2004
