Pdf Mind Collection Studies Eighteenth Century Material:

Irish Materialisms Colleen Taylor, 2023-12-08 Irish Materialisms The Nonhuman and the Making of Colonial Ireland 1690-1830 is the first book to apply recent trends in new materialist criticism to Ireland. It radically shifts familiar colonial stereotypes of the feminized racialized cottier according to the Irish peasantry's subversive entanglement with nonhuman materiality. Each of the chapters engages a focused case study of an everyday object in colonial Ireland: coins, flax spinning wheels, mud and pigs to examine how each object's unique materiality contributed to the colonial ideology of British paternalism and afforded creative Irish expression. The main argument of Irish Materialisms is its methodology of reading literature through the agency of materiality and nonhuman narrative in order to gain a more egalitarian and varied understanding of colonial experience. Irish Materialisms proves that new materialism holds powerful postcolonial potential. Through an intimate understanding of the materiality Irish peasants handled on a daily basis this book presents a new portrait of Irish character that reflects greater empowerment, resistance and expression in the oppressed Irish than has been previously recognized.

Enclosure Gary Fields, 2017-09-05 Enclosure marshals bold new and persuasive arguments about the ongoing dispossession of Palestinians. Revealing the Israel Palestine landscape primarily as one of enclosure, geographer Gary Fields sheds fresh light on Israel's actions. He places those actions in historical context in a broad analysis of power and landscapes across the modern world. Examining the process of land grabbing in early modern England, colonial North America and contemporary Palestine, Enclosure shows how patterns of exclusion and privatization have emerged across time and geography. That the same moral, legal and cartographic arguments were copied by enclosers of land in very different historical environments challenges Israel's current rationale as being uniquely beleaguered. It also helps readers in the United Kingdom and the United States understand the Israel Palestine conflict in the context of their own tortured histories.

Material Agency Carl Knappett, Lambros Malafouris, 2008-12-15 Agency is a key theme that cuts across a wide raft of disciplines in the humanities, social sciences and beyond yet it is invariably discussed separately behind closed disciplinary doors. Within archaeology agency has been characterized as a uniquely human attribute and a means of incorporating individual intentionality into theoretical discourse. In other domains however, notions of non-human and material agency have been finding currency and it is our aim to introduce some of these themes into archaeology and develop a non-anthropocentric approach to agency. It is anticipated that such a perspective will not only help us achieve more convincing interpretations of the past giving a more active role to material culture but also throw new light on the changing role of artifacts in the present and the future. This book is a groundbreaking attempt to address questions of non-human and material agency from a wide range of perspectives and disciplines: archaeology, anthropology, sociology, cognitive science, philosophy and economics. The editors and authors demonstrate that a distributed relational approach to agency incorporating both humans and artifacts has important ramifications for how we understand material culture.
