Global Street Design Guide Global Designing Cities Initiative, National Association of City Transportation Officials, 2016-10-13 The Global Street Design Guide is a timely resource that sets a global baseline for designing streets and public spaces and redefines the role of streets in a rapidly urbanizing world. The guide will broaden how to measure the success of urban streets to include access safety mobility for all users environmental quality economic benefit public health and overall quality of life. The first ever worldwide standards for designing city streets and prioritizing safety pedestrians transit and sustainable mobility are presented in the guide. Participating experts from global cities have helped to develop the principles that organize the guide. The Global Street Design Guide builds off the successful tools and tactics defined in NACTO's Urban Street Design Guide and Urban Bikeway Design Guide while addressing a variety of street typologies and design elements found in various contexts around the world.
