Computer Algebra Recipes Richard Enns,George C. McGuire,2013-03-07 Computer algebra systems have the potential to revolutionize the teaching of and learning of science Not only can students work thorough mathematical models much more efficiently and with fewer errors than with pencil and paper they can also work with much more complex and computationally intensive models Thus for example in studying the flight of a golf ball students can begin with the simple parabolic trajectory but then add the effects of lift and drag of winds and of spin Not only can the program provide analytic solutions in some cases it can also produce numerical solutions and graphic displays Aimed at undergraduates in their second or third year this book is filled with examples from a wide variety of disciplines including biology economics medicine engineering game theory physics chemistry The text is organized along a spiral revisiting general topics such as graphics symbolic computation and numerical simulation in greater detail and more depth at each turn of the spiral The heart of the text is a large number of computer algebra recipes These have been designed not only to provide tools for problem solving but also to stimulate the reader s imagination Associated with each recipe is a scientific model or method and a story that leads the reader through steps of the recipe Each section of recipes is followed by a set of problems that readers can use to check their understanding or to develop the topic further *Computer Algebra Recipes* Richard H. Enns,George C. McGuire,2007-12-31 This book presents a large number of computer algebra worksheets or recipes that have been designed using MAPLE to provide tools for problem solving and to stimulate critical thinking No prior knowledge of MAPLE is necessary All relevant commands are introduced on a need to know basis and are indexed for easy reference Each recipe features a scientific model or method and an interesting or amusing story designed to both entertain and enhance concept comprehension and retention *Controlling Restaurant & Food Service Food Costs* Douglas Robert Brown,2003 This series of fifteen books The Food Service Professional Guide TO Series from the editors of the Food Service Professional magazine are the best and most comprehensive books for serious food service operators available today These step by step guides on a specific management subject range from finding a great site for your new restaurant to how to train your wait staff and literally everything in between They are easy and fast to read easy to understand and will take the mystery out of the subject The information is boiled down to the essence They are filled to the brim with up to date and pertinent information The books cover all the bases providing clear explanations and helpful specific information All titles in the series include the phone numbers and web sites of all companies discussed What you will not find are wordy explanations tales of how someone did it better or a scholarly lecture on the theory Every paragraph in each of the books are comprehensive well researched engrossing and just plain fun to read yet are packed with interesting ideas You will be using your highlighter a lot The best part aside from the content is they are very moderately priced The whole series may also be purchased the ISBN number for the series is 0910627266 You are bound to get a great new idea to try on every page if not out of every paragraph Do not be
