## Online Just Work Migrant Workers Struggle:

**The Precarious Migrant Worker** Panos Theodoropoulos, 2025-06-13 Migrant workers in the West are at the frontline of the precarious condition that is coming to dominate social and economic life in neoliberal societies. Yet despite the highly insecure and exploitative working conditions they routinely face, labour mobilizations by precarious workers are rare. In this immersive portrait of the daily realities of precarious migrant labour, Panos Theodoropoulos found work in Glasgow's warehouses, factories and kitchens to uncover the ways that precarity is lived and contested. Connecting the realms of structure, subjectivity and culture, his analysis shows that precarity not only dictates workers' labour conditions but socializes them in an individualist survival oriented struggle that erodes solidarities and enforces its own neoliberal logic. Crucially, however, precarity and the wider neoliberal culture are unable to erase workers' material awareness and experience of class injustice. This points to the possibility of forging strong connections and methods of resistance firmly grounded in the lives and communities of precarious workers. Blending interviews, ethnographic notes and social theory, *The Precarious Migrant Worker* offers a unique glimpse into our increasingly precarious social reality and will be a valuable resource for scholars, students and activists interested in issues of migration, precarity and resistance.

[Migration in South Asia](#) S. Irudaya Rajan, 2023-06-28 This open access Regional Reader provides a contemporary look at the emerging challenges and issues facing South Asian migration amidst covid 19 and discusses a framework for a sustainable and cooperative migration from and within the region which will impact both the economic and regional development of South Asia. The book draws a focus on this area through an interdisciplinary and holistic lens and follows the three broad areas of migration studies in South Asia: Governance and mobility, Family health and demography, and Forced migration. It thereby covers a number of issues from South Asian countries such as Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan and the Maldives. This book is a valuable resource for those who want to understand the dynamics of migration from the largest migrant sending region in the world and one which will determine the shape of global migration patterns in the future.

**Disposable Workers** Mostafa Henaway, 2023-07-20T00:00:00Z Across the world we are witnessing daily the lethal effects of a rapid and scary hardening of borders ignited and justified by manufactured fear and scarcity. In such conditions, highly exploitative ideas of managed migration are presented as reasonable and just. And temporary worker programs championed by countries like Canada and the US are presented as an acceptable response to both acute labour shortages and ugly nationalist feelings. For this, all workers pay the price in the form of dwindling rights and diminished solidarity. This book is the result of decades of thinking, organizing and deep research on the global struggle for equality and freedom in and against an increasingly walled world. Through this immediate and up close account, Henaway takes the reader on a journey across a familiar consumer landscape of corporate power from Amazon and Dollarama to chicken farms and late night rideshares, offering a vivid analysis of the consequences of a system built to marginalize, exploit and divide people through the creation

of exclusionary categories of belonging In Essential Work Disposable Workers Henaway offers a counter proposal to the global border arguing that we reject control over freedom of movement as a means to halt a race to the bottom for all working people and instead build solidarity across struggles for decent work and justice In this moving account of a global system of hyper exploitation Henaway weaves stories of struggle with his own on the ground experience and expansive research to explain the workings of a global system of managed precarity that affects everyone who works albeit unequally Written with the unique verve and insight of a committed scholar and decades long grassroots organizer Essential Work Disposable Workers offers a vivid analysis to help us grasp the cruel consequences of borders and points to an alternative future Contesting Colonial Capitalism in the Americas, Africa, and Asia Dip Kapoor,2025-03-20 This book is a critical excavation of capitalist development that is being driven by the Global North in the modern neo colonial era with a related focus on the anticolonial and anticapitalist resistance by Indigenous Peoples peasants and migrant workers in Africa Asia Middle East and the Americas Caribbean Informed by the work of Dr Abdul Aziz Choudry the contributors demonstrate how Indigenous peasant and migrant worker learning in political action and knowledge production are essential for growing and sustaining social movements and organised struggles The collection demonstrates how these resistances challenge racialized processes of territorial occupation accumulation by dispossession exploitation and cultural and educational imperialism Focusing on the regions of the Americas Caribbean Africa Asia Middle East and across both settler and exploitation colonies the chapters amplify Indigenous peasant and migrant worker activism and draw out critical perspectives pertaining to colonial capital The Indigenous anticolonial and anticapitalist politics highlighted in this book will be essential reading for activists engaged with international relations and social change It will also inform the work of students and critical scholars of social movement and resistance studies critical development studies Indigenous studies peasant and critical agrarian studies migrant labour studies sociology political science and regional area studies *Immigrant and Migrant Workers Organizing in Canada and the United States* Jorge Frozzi, Alexandra Law,2017-11-08 Across Canada and the United States immigrant workers face important obstacles at work and in the broader society whether their immigration status is temporary permanent or nonexistent Hyper precarious workers of all status groups and their allies in unions and worker centers are organizing to improve their conditions In this book Jorge Frozzi and Alexandra Law two longtime volunteers with a Canadian worker center draw on their own experience in depth interviews and academic work from the fields of law communication studies and social movement theory to produce a tactically focused theoretically informed introduction to immigrant worker organizing in a neoliberal era Frozzi and Law describe the phenomenon of employment precarity in the context of U S and Canadian labor history explaining how union certification and collective bargaining function under the law Without directing activists toward any single best strategy they cover tactical and ethical questions raised when organizers offer casework as a recruitment and research tool The royalties from this book will go to the Immigrant Workers Centre

Montreal      **Just Work?** Aziz Choudry, Mondli Hlatshwayo, 2015-12-20 This book offers a vast range of grassroots perspectives on global migrant labour organisation in the twenty first century. From workers organisations in South African migrant worker resistance in the Gulf from forest workers in the Czech Republic to domestic workers structures in Hong Kong this book brings together a wealth of lived experiences and hidden struggles for the first time. Highlighting the changing nature of frontline struggles against exploitation Just Work shows that migrant workers are finding new and innovative ways of resisting neoliberal immigration measures as they are forced to fight against the precarious nature of jobs from both within and outside of traditional forms of labour organisations. With contributions from scholars and activists from around the world engaged in this resistance this will be an accessible collection based on grassroots experiences placed in a political economy framework. The full list of regions explored are South Africa Latin America Philippines the Gulf Arab States North America Czech Republic Hong Kong Japan London Nigeria New Zealand Canada and Switzerland      [Transnational Civil Society in Asia](#) Simon Avenell, Akihiro Ogawa, 2021-07-22 This edited volume addresses how transnational interactions among civil society actors in Asia and its sub regions are helping to strengthen common democratic values and transform dominant processes of policymaking and corporate capitalism in the region. The contributors conceive of transnational civil society networks as constructive vehicles for both informing and persuading governments and businesses to adopt, modify or abandon certain policies or positions. This volume investigates the role of such networks through a range of interdisciplinary approaches bringing together case studies on Asian transnationalism from South Southeast and Northeast Asia across four key themes local transformations and connections diaspora politics cross regional initiatives and networks and global actors and influences. Chapters demonstrate how transnational civil society is connecting people in local communities across Asia in parallel to ongoing tensions between nation states and civil society. By highlighting the grassroots regionalization emerging from ever intensifying information exchange between civil society actors across borders as well as concrete transnational initiatives uniting actors across Asia the volume advances the intellectual mandate of redefining Asia as a dynamic and interconnected formation. Transnational Civil Society in Asia will appeal to students and scholars of international relations politics and Asian studies more broadly      **The Working Class "web"** Steven Colatrella, 1998      *Gender and Migration* Caroline Sweetman, 1998 The articles in this collection explore the vast array of different reasons for women and men moving within and outside their native countries whether it be for employment upon marriage or in the midst of conflict. The authors who include Uma Kothari and Emma Crewe Ben Rogaly and Alex Jones stress the importance of seeing an individual migrant in her or his context as a member of a social network spanning different locations. Understanding these links means that migration can be seen as part of a wider strategy for making a living      **International Social Science Journal** , 1999 **Choice** , 2000      **The American** , 2006      [Inqaba Ya Basebenzi](#) , 1983      **The Structure and Evolution of Chinese Social Stratification** Li Yi, Dr. Yi Li, 2005-10-25 There have been two great shifts of power on the world stage during the
