Business Homosexuality in the Work of Gore Vidal Jörg Behrendt, 2002 Since his first novel with a homosexual topic, *The City and the Pillar*, appeared in 1948, Gore Vidal has been seen as an enfant terrible of American letters. Through his ongoing writing career, he has examined homosexuality in the context of cultural, religious, and socio-political developments so that it is fascinating to revisit his critical, sometimes cynical, and always wittily presented ideas which were formed at a time when Gay Liberation, Gay Literature, and Gay Identity were still unheard of and to discover the meaning these ideas still hold for us today.

The International Directory of Little Magazines and Small Presses Len Fulton, 2006-09 The biggest revision in ten years of the Bible of the business Wall Street Journal. This essential reference for writers, librarians, students of modern literature, and readers worldwide was started in the 1960s during the initial phase of the small press revolution. It is safe to say that in its forty-first edition, the directory is a publishing legend. It includes information on over 5,000 presses and journals from around the world, listing addresses, manuscript requirements, payment rates, and recent publications. Subject and regional indexes are also provided.

After Work Shiori Shakuto, 2025-01-07 An ethnography of silver backpackers that offers a feminist perspective on what makes a good retirement in contemporary societies. The moniker silver backpackers refers to Japanese couples who in their mid-fifties to seventies move to Malaysia to enjoy their retirement. Recent scholarship on Japan has revealed how the gendered division of labor impacts the lives of middle-class workers and their families. But how do cultural values live on or change when these professionals retire from work, move on from identities built through salaried careers, and embark on a new phase of life? *After Work* takes up this question to focus on what comes after work and in the process expands our understanding of aging.

gender migration and the future of work Based on fifteen months of fieldwork in Kuala Lumpur and employing a transnational feminist framework *After Work* investigates moments of difference in the experiences of older women and men to examine patriarchal conversations that dominate ideas about contemporary retirement Shiori Shakuto argues that anxiety around self and belonging in retirement are instigated by the capitalist labor regime and the discourse of successful aging both of which devalue nonremunerated activities conducted at home What is needed instead she contends is a re valuation of key domestic activities from caring for children to pursuing individual hobbies so that life can be appreciated in its entirety Shakuto also takes into account the fact that this transnational retirement is set in Malaysia a nation that Japan occupied during World War II and thereafter subject to decades of economic investment and resource exploitation by Japanese corporations Highlighting how historical cultural and racialized complexities entangle with intimate relations in increasingly connected Asian countries while simultaneously acknowledging how the boundaries between work and life blur ever more in contemporary society *After Work* complicates our perceptions of aging and a good retirement as well as our understandings of gender migration and the future of work as we know it
