Labour Disrupted Malehoko Tshoaeedi, Andries Bezuidenhout, Janet Cherry, Nomkhosi Xulu-Gama, Mondli Hlatshwayo, Mpho Mmadi, Aisha Lorgat, Siphelo Ngcwangu, Babalwa Magoqwana, Sandla Nomvete, John Mashayamombe, Jantjie Xaba, Lucien van der Walt, Edward Webster, 2023-10 Labour Disrupted reflects on the past and the future of labour primarily in South Africa but also globally. It focuses on how South Africa's lockdown during the Covid 19 pandemic further exposed key contradictions and challenges that labour movements face. The contributions include a diverse range of topics currently engaged with by those actively engaged in the field of labour movement. Essays by academics and activists tackle thorny issues from redefining democracy in South Africa to experiences of inclusiveness or lack thereof in workplace environments by women, young people, migrant workers, LGBTI people and people living with disabilities. The volume addresses contemporary issues related to the use of technology and the impact of the fourth industrial revolution on the youth and the working class and the challenges of skills development and restructuring in the workplace. Beyond Tenderpreneurship MISTRA, 2020-04-16 Black Economic Empowerment BEE policies have been a central pillar of attempts to overcome the economic legacy of apartheid. Yet more than two decades into democracy, economic exclusion in South Africa still largely reflects the fault lines of the apartheid era. Current discourse often conflates BEE with the so-called tenderpreneurship referred to in the title, namely the reliance of some emergent black capitalists on state patronage. Authors go beyond this notion to understand BEEs role from a unique perspective. They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse. In the context of modern South Africa, authors interrogate the complex dynamics of class formation, economic empowerment and redress against the backdrop of broader macroeconomic policies. They examine questions relating to whether BBEE policies are informed by strategies to change the structure of the economy. These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation. The relevant black empowerment experiences of countries such as the United States are also discussed. The authors identify policy and programmatic interventions to forge the non-racial future that the constitution enjoins South Africans to build.

Violence in South Africa Elirea Bornman, René Van Eeden, Marie Wentzel, 1998 Violence in South Africa contains contributions on various issues related to violence in South Africa. The variety of perspectives, explanations and intervention strategies indicates that violence, its causes and prevention are diverse and complex matters. Hence a single perspective or universal explanation cannot properly explain the phenomenon. Factors related to the micro and macro levels as well as the interaction between these levels should be considered. The contributions consequently do not deal only with violence of a structural, collective or political nature but also the far more prevalent forms of interpersonal and small group violence.
