## **Neither Right Nor Left Fascist Ideology In France:**

*Neither Right Nor Left* Zeev Sternhell, 1996      **Where Have All the Fascists Gone?** Tamir Bar-On, 2007-01-01 The Intellectual European New Right ENR also known as the nouvelle droite is a cultural school of thought with origins in the revolutionary Right and neo fascist milieux This study traces the cultural philosophical political and historical trajectories of the French nouvelle droite in particular and the ENR in general      **Hebrew Fascism in Palestine, 1922-1942** Dan Tamir, 2018-04-18 This book focuses on a little studied yet virulent and devoted fascist faction that was active within Zionist circles during the 1920s and 1930s Since the early 1930s the term fascist was regularly used by Labour Zionists in order to defame their right wing opponents the Revisionists The latter group for its part tended to reject such accusations Up to this point however little comprehensive research has been carried out for examining the possible existence of a genuine Hebrew fascism in Palestine according to a global comparative model of generic fascism This book is an attempt to do so examining the first wave of fascism in Palestine during the inter war period The current discussion in Israel about rising fascist movements and organisations gained momentum during the past decade Telling the story of a yet relatively neglected part of the roots of the Israeli right wing may not only shed light on the past but also provide us with a historical perspective when measuring contemporary political movements and events      *The Birth of Fascist Ideology* Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994 When *The Birth of Fascist Ideology* was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell's controversial interpretations In Sternhell's view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity      **Haeckel's Monism and the Birth of Fascist Ideology** Daniel Gasman, 1998 Utilizing hitherto unexplored material that has become available only after the dismantling of the Berlin Wall this book examines the Monist philosophy of the German zoologist Ernst Haeckel and its role in stimulating the birth of Fascist ideology in Italy and France Focusing on the relevance of evolutionary science Fascist thought is revealed as

intimately related to Haeckel's scientific Monism an approach that differs from most interpretations that tend to voice skepticism about the existence of a specific intellectual origin for Fascist ideology     *Sculpture and Psychoanalysis* Brandon Taylor, 2017-07-05 Just what do psychoanalysis and modern sculpture have to do with one another The present collection of essays unique in its field shows how key metaphors of Freudian and Kleinian psychoanalysis splitting projection sublimation identification the schizoid and reparative mechanisms as well as Lacan's concepts of the stade du miroir and the objet petit a can be fruitfully applied to a range of modern three dimensional art from Surrealism to the present day As these essays show figures such as Barbara Hepworth Eva Hesse Jean Jacques Lebel Robert Morris Donald Judd Gilbert and George Rebecca Horn and others have often approached the material of sculpture with something like these mechanisms in mind The need to unlock the levels of psychoanalytic connection between artist object and viewer in recent debate has fuelled the diverse proposals of this original and important book     **The State and the Radical Right in Italy, France and Britain**

Richard C. Thurlow, 1991     *An Age of Conflict* Leslie Derfler, 1997     **"Marianne and the Jew"** Sandrine Sanos, 2004

**Jacques Maritain, the Man and His Metaphysics** John F. X. Knasas, 1988 The spirit and animation of the French Catholic philosopher Jacques Maritain is celebrated in this collection of essays It recognizes the legacy of Maritain's vision in the engagement of the ideas of St Thomas Aquinas with the 20th century     *Europe 1789 to 1914* John M. Merriman, J. M. Winter, 2006 A five volume survey of European history from the onset of the French Revolution to the outbreak of World War I Alphabetically arranged entries cover the period's most significant personalities and meaningful developments in the arts religion politics exploration and warfare For students scholars and general readers     **Historical Abstracts** Eric H. Boehm, 1999     *Academics, Pompiers, Official Artists and the Arrière-garde* Natalie Adamson, Toby Norris, 2009 *Academics Pompiers Official Artists and the Arrière-garde* Defining Modern and Traditional in France 1900-1960 is a collection of eight essays and a scholarly introduction by established and emerging scholars that challenges the continuing modernist slant of twentieth century art history The intention is not to perpetuate the vulgar opposition between avant garde and reactionary art that characterized early twentieth century discourse and has marked much subsequent historical writing but rather to investigate the complex relationship that both innovative and conservative artists had to the concept of tradition How did artists and art critics conceive of tradition in relation to modernity What was the role of an artist TM's institutional positioning in determining expectations for his or her art What light is thrown on the structure of the French art world by considering artists from abroad who worked in Paris How did the war alter modernist and avant garde paradigms and force crucial changes upon art production in the postwar period to 1960 Particular attention is paid to the terms academic pompier official and arrière-garde originally used to situate the more conservative artists and works as second rate or as the negative foil to the assumed radicalism of the avant garde By re-evaluating the work of artists pushed to the historical margins by such polemical descriptors and by proposing alternative understandings of the aesthetic economic institutional and political

factors that drive our ideas of avant gardism and the modernist narrative in France this collection of essays offers new routes to explore the terrain of twentieth century art in France     *International Review of Social History* ,1998     **Anarchist Integralism** Luther Blissett,1997     **Comparative Civilizations Review** ,1991     **Liberalism and Social Reform** David Gordon,1996-01-19 This book examines the heroic spirit of French industrial capitalism prior to World War I and the role certain industrialists played in ensuring the success and stability of the country s economic and political order It focuses in particular on the success of innovative manufacturers in France s chief industrial centers the Nord Loire and Lorraine where failing industrialists were saved through the introduction of new manufacturing techniques It was only when Socialists abandoned revolutionary aims that they were able to successfully compete against their Iprogressiste R rivals Democratic politics forced the evolution of political life away from confrontation between capitalist and anti capitalist parties
