Course Outline: The topics covered in this course are Enterprise and Master Data, Introduction to Master Data Management, Classification, Information Types and App *Navigating the Labyrinth* Laura Sebastian-Coleman, 2018-04-15. If you are leading an organization or if you need to communicate with leaders about data management, *Navigating the Labyrinth* is your guide. Organizations that want to get value from their data need to manage that data well. But to most executives, data management seems obscure, complicated and highly technical. They don't have time to learn all the detail or cut through the hype. *Navigating the Labyrinth* helps them get there. Based on best practices from DAMA's Data Management Body of Knowledge (DMBOK2), it explains the fundamentals and says why they are important. It focuses their attention on what they need to know to help their organizations build trust in and get value out of their data. About DAMA: DAMA International is a not-for-profit vendor-independent association of technical and business professionals dedicated to advancing concepts and practices related to managing data and information in support of business strategy. With chapters throughout the world, DAMA International supports an empowered global community of information professionals by focusing on our five pillars: Membership, Certification and Education, Publications and Research, Chapters and Partnerships. DAMA International encourages best practice behavior through a network of connected individuals and organizations who share ideas, trends, problems and solutions and who look to DAMA as the trusted, collaborative central
