But when you're finished you'll discover that your ability to create effective web sites has mysteriously improved. A brilliant idea for a book and very nicely done. Steve Krug author of *Don't Make Me Think: A Common Sense Approach to Web Usability* Why do people decide to buy a product online? Register at your Web site. Trust the information you provide. Neuro Web Design applies the research on motivation, decision making and neuroscience to the design of Web sites. You will learn the unconscious reasons for people's actions, how emotions affect decisions and how to apply the principles of persuasion to design Web sites that encourage users to click. Neuro Web Design employs neuro marketing concepts which are at the intersection of psychology and user experience. It's scientific yet you'll find it accessible, easy to read and easy to understand.
