

Nursing Case Studies

Management of acute exacerbation of chronic heart failure

Patient background

Mr. Johnson is a 65-year-old male with a history of chronic heart failure (CHF). He presents to the emergency department with complaints of worsening shortness of breath, fatigue, and lower extremity edema for the past two days. He reports non-compliance with his prescribed medications and dietary restrictions.

Assessment findings

- **Vital signs:** BP 160/90 mmHg, HR 110 bpm, RR 24 bpm, SpO2 88% on room air
- **Lung auscultation:** Bilateral crackles heard in lung bases
- **Lower extremity assessment:** 2+ pitting edema bilaterally
- **Lab results:** Elevated BNP levels, hyponatremia, hypokalemia

Nursing diagnoses

1. Impaired Gas Exchange related to fluid overload and decreased oxygenation.
2. Activity Intolerance related to decreased cardiac output and dyspnea.
3. Noncompliance with Medications related to lack of understanding and socioeconomic factors.

Interventions

1. Administer oxygen therapy via nasal cannula at 2 L/min to improve oxygenation.
2. Monitor fluid intake and output, restrict sodium intake, and administer prescribed diuretics to reduce fluid overload.
3. Educate the patient and family about the importance of medication adherence, dietary restrictions, and daily weight monitoring.
4. Collaborate with the healthcare team to adjust medication regimen, including ACE inhibitors, beta blockers, and diuretics.

Rationale for interventions

1. Oxygen therapy improves oxygenation and relieves dyspnea.
2. Diuretics help reduce fluid overload and alleviate symptoms of congestion.
3. Patient education promotes self-management and empowers the patient to participate in their care.

Evaluation

- Mr. Johnson's oxygen saturation improves to 94% on supplemental oxygen.
- Crackles in lung bases diminish after diuretic therapy, and lower extremity edema decreases.
- Patient verbalizes understanding of medication regimen and plans to adhere to prescribed treatment.
- Follow-up appointment scheduled for cardiac rehabilitation and medication review.

Nursing Critical Care Case Studies

Helen Dutton, Jacqui Finch

Nursing Critical Care Case Studies:

Review of Critical Care Nursing Sheila Drake Melander, 1996 Critical care nursing requires you to interpret and apply a great deal of information quickly and accurately That kind of critical thinking takes practice the kind of practice you ll find in *Review of Critical Care Nursing Case Studies and Applications* The 26 case studies and corresponding questions boost your ability to make competent confident decisions Based on actual clinical experiences the case studies thoroughly describe a variety of pulmonary cardiac renal neurological gastrointestinal endocrine and multisystem problems from symptoms through management After each case study a set of 10 20 questions challenges your critical thinking decision making and deductive reasoning skills *Advanced Practice in Critical Care* Sarah McGloin, Anne McLeod, 2010-02-09 *Advanced Practice in Critical Care* provides experienced critical care nurses with a clear and distinct evidence base for contemporary critical care practice Central to the book is the application of research and evidence to practice and therefore case studies and key critical care clinical situations are used throughout to guide the reader through the patient care trajectory Each chapter introduces an initial patient scenario and as the chapter progresses the patient scenario develops with the theoretical perspectives and application In this way it is evident how multi organ dysfunction develops impacting upon and influencing other body systems demonstrating the multi organ impact that is often experienced by the critically ill patient In this way consequences of critical illness such as acute renal failure haemostatic failure and liver dysfunction are explored Throughout the text key research findings and critical care treatment strategies are referred to applied and evaluated in the context of the given patient case study Advanced assessment techniques are explained and the underlying pathophysiology is discussed in depth *Advanced Practice in Critical Care* is an essential resource for experienced practitioners within critical care whom primarily care for patients requiring high dependency or intensive care **Case Studies in Critical Care Nursing** Sheila Drake Melander, 2004 Containing detailed and up to date case studies on critical care conditions with accompanying questions and answers for applied learning of the practice of critical care nursing this resource allows the reader to hone vital skills that are necessary in a critical care environment **Case Studies in Critical Care Nursing** Western Schools, 2005-01-01 **Case Studies in Critical Care Nursing** Barbara Clark Mims, 1990 **Critical Care Outreach** Lee Cutler, Wayne Robson, 2006-07-11 Following the publication of the department of health document *Comprehensive Critical Care 2000* the majority of hospitals in England have set up Critical Care Outreach Teams The Government provided a significant sum of money for hospitals to set up outreach services There are now calls for an evaluation of their impact The book is set out in five key sections Each section features chapters that address the conceptual and real life issues In each section there is a chapter set out as a case study example demonstrating how innovative practices and service developments are going on around critical care outreach The book will draw upon the knowledge experience and clinical expertise of senior critical care nurses and doctors from a critical care network The book will have a definite practical application and will

provide tips to enhance practice Chapters contain useful how to guides prompts for critical thinking and case studies Very little has previously been published on this topic *Case Studies in Critical Care Nursing* Sheila Drake Melander,2001 Detailed and up to date this new second edition offers practical case studies covering a wide variety of critical care problems Each features questions and answers to help readers sharpen their critical thinking skills and prepare for the CCRN exam It features new chapters on blunt abdominal trauma and abdominal aortic aneurysm and updated case studies reflect new treatment modalities and current critical care pharmacology **Critical Care Nursing** Suzanne Bench,Kate Brown,2011-02-10 Critical Care Nursing Learning from Practice takes a unique approach to critical care Based around case scenarios that have the patient as the central focus each chapter is constructed around an example of a critically ill patient with specific care needs The chapters then go on to critically explore the knowledge and skills required to deliver expert care This book looks at a range of critical care scenarios including The patient with acute lung injury The patient with fever The patient with an acute kidney injury The patient with long term needs The patient with increased intra abdominal pressure The Patient following cardiac surgery Each chapter develops knowledge of the related physiology pathophysiology appropriate nursing interventions that are research evidence based technical skills data interpretation and critical appraisal skills enabling the reader to apply fundamental knowledge to more complex patient problems Critical Care Nursing Learning from Practice is an essential resource for practitioners faced with complex and challenging patient cases **Critical Care Nursing: the Humanised Approach** Sara J. White,Desiree Tait,2018-12-10 Tait and White provide a much needed introduction to the complex field of critical care nursing for undergraduate and postgraduate students Covering the essential aspects of critical care nursing students are asked to consider the biopsychosocial triggers of critical illness and are walked through a number of different patient scenarios Reacting to the Francis Report and other inquiries into standards of care Tait and White s humanising approach to critical care places equal emphasis on the head hand and heart knowledge evidence technical and ethical The book s depth of clinical knowledge is built and cemented through extended case studies of critically ill patients with a variety of needs This breadth along with the author s unique approach prepares students for courses and assignments in critical care as well as preparing critical care nurses for clinical decision making and practice A must have for anyone studying or working in critical care nursing *Advanced Case Studies in Acute/critical Care* Susan D. Ruppert,2012

This updated edition includes Scenarios easily adaptable to an instructor's own lab. A new section on graduate nursing education and interdisciplinary clinical scenarios. New interdisciplinary interprofessional and community based scenarios. Expansive chapter templates. Focus on cultural sensitivity, health literacy and research methods. Information on certification issues and integrating e records in simulation. Case Studies in Cardiovascular Critical Care Nursing Mickie D. Welsh, John M. Clochesy, 1990. Detailed clinical case study presentations of adult and pediatric patients with medical and surgical cardiovascular problems are provided. Cases emphasize independent nursing decision making and practical clinical intervention. Nursing care plans are included with each case and special assessment tools are discussed. **AACN Certification and Core Review for High Acuity and Critical Care - E-Book** AACN, American Association of Critical-Care Nurses, 2007-06-25. The new 6th edition of Core Review for Critical Care Nursing helps readers assess and build their knowledge of critical care nursing as they prepare for the certification exam. The book consists of three 200 question sample examinations that provide extensive practice and review key content. An in depth rationale complete with references is included for each question. Written under the authority of the American Association for Critical Care Nurses AACN, this book is an ideal study tool to facilitate preparation for critical care nursing certification. This title includes additional digital media when purchased in print format. For this digital book edition media content is not included. Based on Core Curriculum for Critical Care Nursing 6th Edition, the review is designed to follow along with the core text. Three separate sample examinations each address the complete range of important areas in critical care nursing and challenge readers' mastery of the essential knowledge base in the specialty. Answers are provided for each question accompanied by rationales and references to assist readers in building their knowledge. Each examination mirrors the certification examination content: multiple choice question format and content distribution giving readers realistic practice for the examination. Three additional online sample examinations give users extra practice. Contains a review of the synergy model including Professional Care and Ethical Practice. Contains a review of the AHRQ and JCAHO evidence based practice guidelines that are incorporated in Core Curriculum for Critical Care Nursing 6th Ed. *Priorities in Critical Care Nursing* Linda D.
