**Nursing Diagnoses 2015-17** NANDA International, 2014-08-01 Nursing Diagnoses Definitions and Classification is the definitive guide to nursing diagnoses as reviewed and approved by NANDA I. The 2015 2017 edition of the classic and internationally recognised text has been rigorously updated and revised and now provides more linguistically congruent diagnoses as a result of the Diagnostic Development Committee's attentiveness to understanding the translation of the diagnostic label definition defining characteristics related factors and risk factors. Each of the 235 diagnoses presented are supported by definitions as well as defining characteristics and related factors or risk factors. Each new and revised diagnosis is based on the latest global evidence and approved by expert nurse diagnosticians, researchers and educators. New to this edition: 26 brand new nursing diagnoses and 13 revised diagnoses. Updates changes and revision to the vast majority of the nursing diagnosis definitions in particular the Health Promotion and Risk Diagnoses. A standardization of diagnostic indicator terms defining characteristics related factors and risk factors to further aid clarity for readers and clinicians. All introductory chapters are written at an undergraduate nursing level and provide critical information needed for nurses to understand assessment its link to diagnosis and the purpose and use of taxonomic structure for the nurse at the bedside. A new chapter focusing on Frequently Asked Questions representing the most common questions received through the NANDA I website and at global conferences. Five nursing diagnoses have been re-slotted within the NANDA I taxonomy following a review of the current taxonomic structure. Coding of all diagnostic indicator terms is now available for those using electronic versions of the terminology. Companion website featuring references from the book, video presentations, teaching tips and links to taxonomy history and diagnosis submission review process description.
