The Complete History of American Film Criticism Jerry Roberts,2010-02-01 The Complete History of American Film Criticism is a chronicle of the lives and work of the most influential film critics of the past 100 years From the first movie review in the New York Times in 1896 through the Silent Era the pre and postwar years the Film Generation of the 1960s the Golden Age of the 1970s and

into the 21st century critics have educated generations of discriminating moviegoers on the differences between good films and bad. They call attention to great directors, cinematographers, production designers, screenwriters, and actors and shed light on their artistic visions and storytelling sensibilities. People interested in what the great film critics had to say have usually been shortchanged as to their backgrounds and just why they are qualified to sit in judgment. Using mini biographies placed within a chronological framework, *The Complete History of American Film Criticism* is the biography of a profession whose cultural impact has left an indelible mark on the 20th century's most significant art form. E., 1890 [The Black Box of Governance](#) Sandra Guerra, 2021-09-08 In the world of corporate governance, the board of directors is often viewed as the black box of companies: only the board members who are seated at the meeting table understand how this decision-making machine works. In this book, a board member with over 25 years of experience pulls off the lid and shows both how boards have worked and how they could work. This book is grounded in extensive research in three different surveys: one with more than 100 Brazilian directors, another with 340 board members from 40 countries, and a final one with 103 Brazilian directors serving on 238 boards. It also includes interviews with Ira Millstein, Sir Adrian Cadbury, Robert Monks, and Mervyn King. The inner workings of the board of directors are revealed. What keeps directors awake at night? Obstacles to efficient decision-making? Behavioral dynamics both within the board and in relation to the management? Pitfalls that arise from individual and group biases? Based on these insights and the author's own consulting and board experience, the book presents a guide to behavioral tools enabling directors and executives to confidently navigate the boardroom, improving interactivity and the efficiency of the decision-making process. Intended for directors and executives who are directly involved in the board's activities as well as for leaders responsible for strategy implementation, this book provides a behavioral compass for all those interacting with the black box. **Academy Awards Oscar Annual** Robert A.
