Computer-Human Interaction Research and Applications Hugo Plácido da Silva,Pietro Cipresso,2025-03-07 This two volume set CCIS 2370 and CCIS 2371 constitutes the proceedings of the 8th International Conference on Computer Human Interaction Research and Applications CHIRA 2024 held Porto Portugal during November 21 22 2024 The 16 full papers and 45 short papers presented in these volumes were carefully reviewed and selected from 76 submissions These papers focus on the research advancements and practical applications within various areas in the field of Computer Human Interaction including Human Factors and Information Systems Interactive Devices Interaction Design and Adaptive and Intelligent Systems

The AI Revolution Daniel Vargas-Gomez,2025-09-26 This book examines AI's transformative impact on creativity blending insights from economics media studies and technology to analyze its role in the arts and the broader creative industries AI challenges the way we relate and use technology as well as expand how we think of technological progress overall Structured in three parts the book first rethinks creativity as an inclusive collaborative process through theories like Actor Network Theory arguing AI is a new form of agency within creative networks It explores the economic drivers of AI adoption citing industry forecasts long term trends and the rise of what sociologist Richard Florida calls the Creative Class Through critical analysis of the gaps between the rhetoric and realities of AI the text advocates for Augmented Creativity as the right approach to balance human AI collaboration Lastly the book studies pragmatic scenarios for 2035 focusing on job shifts AI generated content and artistic experimentation avoiding speculative AI hype By grounding debates in real world impacts the book urges a critical yet nuanced view of AI that ensures it remains a potential agent for collaboration rather than a replacement of human skill and imagination

Goodbye Trust Dick Stroud,2024-07-24 A healthy and prosperous society needs efficient and trusted institutions Yet the West is experiencing plummeting levels of trust in academia the media politics business the justice system and financial regulators Unhappiness and mental health problems are skyrocketing especially among the young What the hell is going on Everybody has their pet theory it's because of the pandemic social media is addling our minds it's all Donald Trump's fault Or as Elon Musk believes it's the woke mind virus You know what I think it might be a bit more

complicated I wasn't satisfied with these superficial explanations. After lots of research and questioning I now understand what's happening. Much of what I discovered is disturbing, some is scary and a few details are even amusing. These nine essays present my findings. Six focus on the institutions and additional essays explore language manipulation and the new moral and political divides. The final essay examines those common afflictions destroying our institutions to make sense of it all. This haemorrhaging of trust has disturbing consequences and the woke explanation for what's happening doesn't begin to address the complexity of the situation. Sadly good old fashioned incompetence, deceit and vanity are to blame.
