Escape Marie Le Conte,2022-09-01 Fifteen years ago the internet felt like a special place my friends and I had built for each other by 2020 we were standing on its ruins wondering if we'd played a part in its destruction Journalist Marie Le Conte was born in 1991 the same year the World Wide Web was invented She had her first blog at twelve a successful music website at fifteen a Wikipedia page at seventeen and now at thirty over 80 000 followers on Twitter From MSN Tumblr and MySpace to chat rooms forums and blogs Marie is part of the millennial generation that grew up while the internet was growing up with them Where did it go all wrong How did the internet go from a place where you went to escape real life to where real life is shaped A place where you could be yourself and find like minded people to a world of filters and ads A place we are all now desperately trying to escape from Escape is a fascinating exploration of the rise and demise of the internet It's a look back on the platforms the people and the online places It's an analysis of the lessons being online has taught us how the internet has changed us and a celebration of the tools it gives us to feel less alone The online generation have forever altered the world we live in but is the internet still a place for the people that shaped it
