**Unpublished Fragments from the Period of Thus Spoke Zarathustra (Spring 1884-Winter 1884/85)** Friedrich Nietzsche,2022-02-22 This volume provides the first English translation of Nietzsche's unpublished notes from the spring of 1884 through the winter of 1884/85 the period in which he was composing the fourth and final part of his favorite work *Thus Spoke Zarathustra*. These notebooks therefore provide special insight into Nietzsche's philosophical concept of superior humans as well as important clues to the identities of the famous nineteenth century European figures who inspired Nietzsche's invention of fictional characters such as the prophet the sorcerer and the ugliest human. In these notebooks Nietzsche also further explores ideas that were introduced in the first three parts of *Thus Spoke Zarathustra*. Zarathustra's teaching about the death of God his proclamation that it is time for humankind to overcome itself and create the superhumans his discovery that the secret of life is the will to power and his most profound thought that the entire cosmos will eternally return. Readers will encounter here a wealth of material that Nietzsche would include in his next book *Beyond Good and Evil* as he engages the ideas of Kant and Schopenhauer challenges cultural icons like Richard Wagner and mercilessly exposes the foibles of his contemporaries especially of his fellow Germans. Readers will also discover an extensive collection of Nietzsche's poetry Richly annotated and accompanied by a detailed translators afterword this volume showcases the cosmopolitanism at work in Nietzsche's multifaceted and critical exploration of aesthetic and cultural influences that transcend national and nationalist notions of literature music and culture      *Unpublished Fragments from the Period of Thus Spoke Zarathustra (Summer 1882-Winter 1883/84)* Friedrich Nietzsche,2019-03-19 Volume 14 of *The Complete Works of Friedrich Nietzsche* presents the very first translation into English of the philosopher's unpublished notebooks from the period in which he began working on what he considered his best known and most important work *Thus Spoke Zarathustra*.
