Reading Basics for All Teachers Lin Carver, Lauren Pantoja, 2020-04-15 Reading provides the foundation allowing students to access and analyze information. However, it is not just a single skill. Students' comprehension is impacted and supported by solid foundational skills in oral language, phonemic awareness, phonics, fluency, and comprehension. This book analyzes the skills needed in these areas and strategies and activities to support their development. It expands teachers' skills and strategies to help them make a significant difference in their students' lives. **Race, Equity, and Education** Pedro Noguera, Jill Pierce, Roey Ahram, 2015-11-14 This powerful and timely analysis takes stock of race and education sixty years after the historic Brown vs. Board of Education decision. This volume examines education as one of the most visible markers for racial disparities in the US, as well as one of its most visible frontiers for racial justice. Featuring original research, educators' insights, and perspectives from communities of color, it documents the complex impact of social educational policy on social progress. Chapters on charter schools, curriculum, content, performance, measurement, and disproportionalities in special education referrals shed light on entrenched inequities that must be confronted. The book also makes it clear that leveling the playing field calls for not only better schools but also addressing pervasive social problems such as poverty and housing segregation. Included in the coverage: School Policy is Housing Policy; Deconcentrating Disadvantage to Address the Achievement Gap; Charter Schooling, Race, Politics, and an Appeal to History; The Data Quality Movement for the Asian American and Pacific Islander community; an unresolved civil rights issue; Critical Ethnic Studies in High School Classrooms; Academic Achievement via Social Action; Mexican American Educational Stagnation; The Role of Generational Status; Parental Narratives and Educators' Messages. pp. Pinpointing crucial issues and opportunities for solutions. Race, Equity, and Education has immediate salience for educators and researchers studying the intersection of race and education. *Cluster Development Handbook* Joynal Abidin, M.D., 2017-03-05 Cluster Development Handbook could be considered as one of the easiest guides for cluster development practitioners. Cluster identification, mapping, needs assessment, designing development interventions, monitoring and evaluation, adjustment, creating owner groups for sustainability, and a well-planned exit strategy etc. issues are discussed here in this book with templates, specimens, formats, flowcharts etc. tool to be used in cluster development.
