The Occult Sciences Eusèbe Salverte,1846      Occult Science in India and Among the Ancients Louis Jacolliot,1901

**Secrets Of Occult Science** L. R. Chawdhri,1990-12 God has created this world and everything in it has a meaning It is for man to discover these hidden meanings or messages and decipher them for his own good Ancient civilisations like those of the Hindus Greeks Romans Chaldaeans Chinese and Sumerians considered these hidden meanings to be of vital significance in the context of the destiny and personality of human beings Dreams omens moles on a person s body twitching of certain parts of the body handwriting all have a hidden meaning for us to discover What sun sign we are born under and how it affects our personality and life the use of lucky charms and Tantric articles to mitigate evil influences and attain good health wealth and happiness modern yantras like Crystal Ball Gazing and the Mystic Eye are all dealt with in this book in a simple and interesting manner for the uninitiated reader as well as for astrologers palmists and others      *Occult Science in Medicine* Franz Hartmann,1965      Occult science in India and among the ancients, with an account of their mystic initiations, and the history of spiritism, tr. by W.L. Felt J Louis Jacolliot,1884      *The Occult Sciences* Anthony Norvell,2023-08-26 Great benefits will be bestowed upon the reader of this occult book For in it Norvell reveals the mystic and occult formulas used by the richest men of history to gain control of vast fortunes The reader will discover how to achieve his life goals how to become more dynamic and magnetic how to tap the psycho magnetic wave lengths in the universe and channel them to work miracles of healing success fame riches and abundance SECRET OF TRANSMUTATION REVEALED Here revealed for the first time is the occult secret of Transmutation by which the reader may change the undesirable situations in his or her life into happy prosperous loving and joyous ones the shimmering gold of success and riches Through occult power the reader will learn how to build the mystical and cosmic rainbow of golden dreams that will release him from pain and sickness and old age and bring freedom happiness and useful activity The reader will see how to weave a Magnetic Spell over the minds and hearts of other people and attract love and undying romance as well as friendship and all the other rewards of love and affection HOW TO PROJECT THOUGHT FORMS Through occult power the reader will learn how to project Thought Forms to others minds for more power more money more rewards of life and to achieve any desire With the miraculous Sixth Sense the reader will see how to discover hidden treasures lost objects how to magnetize and attract to himself people he wants to meet WHAT THE STUDY OF OCCULTISM PROMISES YOU When you have learned the hidden secrets of occultism you will literally become a miracle worker You can use your knowledge to influence and control others for good purposes You can project dynamic mental power and magnetize and attract money jobs possessions and objects that you desire You can use the transcendental power of occultism to elevate your consciousness to the level of a genius performing with effortless ease all kinds of astounding actions You can use the higher power of occultism to release psychic and clairvoyant powers giving you precognition and the ability to know your future You can

communicate with other minds you can project your soul to the astral planes while you sleep and travel back into history or into the future dimensions of time and space knowing secrets that are denied to ordinary mortals Occult science differs from physical science in this respect Physical science deals with the world of matter that which can be measured weighed seen felt and heard through the five senses Occult science deals with the invisible phenomena of the universe that which transcends the limited bonds of materiality and the known dimensions of time and space Occult Science in India and Among the

Ancients Louis Jacolliot,2023-01-31 Though deeply sceptical with regard to spirits I often wondered whenever I saw an experiment of this kind whether or not some natural force had not been brought into play with which we were totally unacquainted I merely state the facts without further comment on the trick of the magic stick Spirit forces that make leaves dance in still air and buoyant wooden sticks sink in water and fakirs who levitate themselves and induce plants to grow overnight A European observer in mid 19th century India reports in the straightforward and unsensational fashion of a religious skeptic the seemingly wondrous feats of Indian mystics offering a unique first person perspective on extraordinary phenomenon that continues to be referenced today by modern spiritualists and those interested in the paranormal First published in English in 1884 this intriguing book also includes a translation of esoteric works of Indian magic that have been likened to the Jewish Kabbalah French writer and jurist Louis Jacolliot 1837 1890 served in French India as a government official Among his extensive works on Indian culture are Voyage au pays des fakirs charmeurs 1881 Outline of Occult Science Steiner Rudolf (author),1901 **Encyclopaedia of Occultism; a Compendium of Information on the Occult**

**Sciences, Occult Personalities, Psychic Science, Magic, Demonology, Spiritism, M** Lewis 1874-1955 Spence,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant An Outline of Occult Science Rudolf Steiner,2020-09-28 At the present time the words occult science are apt to arouse the most varied feelings Upon some people they work like a magic charm like the announcement of something to which they feel attracted by the innermost powers of their soul to others there is in the words something repellent calling forth contempt derision or a compassionate smile By many occult science is looked upon as a lofty goal of human effort the crown of all other knowledge and cognition others who are devoting themselves with the greatest earnestness and noble love of truth to that which appears to them true science deem occult science mere idle dreaming and fantasy in the same category

with what is called superstition To some occult science is like a light without which life would be valueless to others it represents a spiritual danger calculated to lead astray immature minds and weak souls while between these two extremes is to be found every possible intermediate shade of opinion Strange feelings are awakened in one who has attained a certain impartiality of judgment in regard to occult science its adherents and its opponents when one sees how people undoubtedly possessed of a genuine feeling for freedom in many matters become intolerant when they meet with this particular line of thought And an unprejudiced observer will scarcely fail in this case to admit that what attracts many adherents of occult science or occultism is nothing but the fatal craving for what is unknown and mysterious or even vague And he will also be ready to own that there is much cogency in the reasons put forward against what is fantastic and visionary by serious opponents of the cause in question In fact one who studies occult science will do well not to lose sight of the fact that the impulse toward the mysterious leads many people on a vain chase after worthless and dangerous will o the wisps Even though the occult scientist keeps a watchful eye on all errors and vagaries on the part of adherents of his views and on all justifiable antagonism yet there are reasons which hold him back from the immediate defence of his own efforts and aspirations These reasons will become apparent to any one entering more deeply into occult science It would therefore be superfluous to discuss them here If they were cited before the threshold of this science had been crossed they would not suffice to convince one who held back by irresistible repugnance refuses to cross that threshold But to one who effects an entry the reasons will soon manifest themselves with unmistakable clearness from within This much however implies that the reasons in question point to a certain attitude as the only right one for an occult scientist He avoids as much as he possibly can any kind of outer defence or conflict and lets the cause speak for itself He simply puts forward occult science and in what it has to say about various matters he shows how his knowledge is related to other departments of life and science what antagonism it may encounter and in what way reality stands witness to the truth of his cognitions He knows that an attempted vindication would not merely on account of current defective thinking but by virtue of a certain inner necessity lead into the domain of artful persuasion and he desires nothing else than to let occult science work its own way quite independently The first point in occult science is by no means the advancing of assertions or opinions which are to be proven but the communication in a purely narrative form of experiences which are to be met with in a world other than the one that is to be seen with physical eyes and touched with physical hands And further it is an important point that through this science the methods are described by which man may verify for himself the truth of such communications For one who makes a serious study of genuine occult science will soon find that thereby much becomes changed in the conceptions and ideas which are formed and rightly formed in other spheres of life A wholly new conception necessarily arises also about what has hitherto been called a proof We come to see that in certain domains such a word loses its usual meaning and that there are other grounds for insight and understanding than proofs of this kind All occult science is born from two thoughts which may

take root in any human being To the occult scientist these thoughts express facts which may be experienced if the right methods for the purpose are used But to many people these same thoughts represent highly disputable assertions which may arouse fierce contention even if they are not regarded as something which may be proven impossible      **An Encyclopaedia of Occultism** Lewis Spence, 2006-09-01 This compendium of information on the occult sciences occult personalities psychic science demonology spiritism and mysticism was one of a kind when it was first published in 1920 and is still considered the best in its field today Spence organizes a world's worth of magic from Ab a magical month in the ancient Semitic calendar to Zulu witch finders into 2 500 dictionary style entries that explore concepts and personalities both familiar Freemasonry Morgan le Fay and obscure palingenesis a process by which plants or vegetables are destroyed and then resurrected Leonora Galigai a 17th century Italian aristocrat who was burned as a witch A delight for devotees of the weird and the strange and a valuable resource for students of mythology and the evolution of scientific thought this important volume is at home in the libraries of all book lovers Scottish journalist and folklorist LEWIS SPENCE 1874 1955 was a Fellow of the Royal Anthropological Institute of Great Britain and Ireland and Vice President of the Scottish Anthropological and Folklore Society He published more than 40 works on mythology and the occult including History of Atlantis An Introduction to Mythology and Myth and Ritual in Dance Game and Rhyme      **The Occult Sciences** Arthur Edward Waite, 1996-09 1891 a compendium of transcendental doctrine Defini      **The Occult Sciences** Eusèbe Salverte, 1847      Occult Scientific Mentalities Brian Vickers, 1984      **An Outline of Occult Science** Rudolf Steiner, 1922      An Encyclopaedia of Occultism Lewis Spence, 1920 This reference book contains a compendium of information on the occult sciences occult personalities psychic science magic demonology spiritism and mysticism      A Science for the Soul Corinna Treitel, 2004-04-20 In A Science for the Soul historian Corinna Treitel explores the appeal and significance of German occultism in all its varieties between the 1870s and the 1940s locating its dynamism in the nation's struggle with modernization and the public's dissatisfaction with scientific materialism Occultism Treitel notes served as a bridge between traditional religious beliefs and the values of an increasingly scientific secular and liberal society Drawing on a wealth of archival materials Treitel describes the individuals and groups who participated in the occult movement reconstructs their organizational history and examines the economic and social factors responsible for their success Building on this foundation Treitel turns to the question of how Germans used the occult in three realms of practice Theosophy where occult studies were used to achieve spiritual enlightenment the arts where occult states of consciousness fueled the creative process of avant garde painters writers and dancers and the applied sciences where professionals in psychology law enforcement engineering and medicine employed occult techniques to solve characteristic problems of modernity In conclusion Treitel considers the conflicting meanings occultism held for contemporaries by focusing on the anti spiritualist campaigns mounted by the national press the Protestant and Catholic Churches local and national governments and the Nazi regime which after years of alternating between affinity and antipathy

for occultism finally crushed the movement by 1945      **Seven Essays on the Subject of Practical Occultism** Ernest Loomis, 1899      Elementary treatise on occult science: Understanding the Theories and Symbols Used by the Ancients, the Alchemists, the Astrologers, the Freemasons & the Kabbalists Gérard Encausse dit PAPUS, 2024-07-27

In *Elementary Treatise on Occult Science* Gérard Encausse known by his pen name Papus offers a masterful introduction to the hidden wisdom of the occult traditions. With clarity and precision Papus explores the profound theories, symbols, and practices used by the ancients, the alchemists, the astrologers, the Freemasons, and the Kabbalists, uncovering the universal principles that connect these diverse spiritual paths. Through this work, Papus reveals the deep metaphysical foundations that underlie the esoteric sciences, guiding readers through the complex symbolic language and rituals that have been passed down through the ages. He explains the hidden meanings behind sacred symbols, alchemical processes, astrological correspondences, and Masonic rites, offering insights into how these traditions reveal universal truths about the nature of reality, the cosmos, and the human soul. *Elementary Treatise on Occult Science* serves as both a comprehensive guide for beginners and a valuable reference for seasoned students of the mystical arts. This timeless work invites readers to deepen their understanding of the occult sciences and to embark on a journey of spiritual discovery, self-transformation, and the exploration of hidden knowledge that has shaped Western esoteric thought.

Gérard Encausse aka Papus (1865-1916) was a renowned French physician, occultist, and one of the most influential figures in the modern Western esoteric tradition. Known by his pseudonym Papus, he played a pivotal role in the revival and popularization of occult teachings during the late 19th and early 20th centuries. A leading figure in the Hermetic Order of the Golden Dawn and a prolific writer, Papus's works span across mysticism, Kabbalah, Tarot, and alchemy. His most famous works, including *The Tarot of the Bohemians* and *The Kabbalah*, brought ancient spiritual systems to a modern audience, blending Eastern and Western esoteric traditions. A visionary thinker and a pioneer of the modern occult revival, Papus's writings continue to inspire and shape the study of mysticism, magic, and esoteric philosophy.
