*Empire of AI* Karen Hao, 2025-05-20 A New York Times Notable Book Finalist for the National Book Critics Circle Award An Instant New York Times Bestseller Named a Best Book of the Year by Smithsonian and Scientific American A bestselling page turner that has made waves not just in Silicon Valley but around the world With Empire of AI Hao is fundamentally shaping many people's perceptions and understanding of the company at the center of the AI revolution TIME Magazine TIME100 AI 2025 Excellent and deeply reported Tim Wu The New York Times Startling and intensely researched an essential account of how OpenAI and ChatGPT came to be and the catastrophic places they will likely take us Vulture From a brilliant longtime AI insider with intimate access to the world of Sam Altman's OpenAI from the beginning an eye opening account of arguably the most fateful tech arms race in history reshaping the planet in real time from the cockpit of the company that is driving the frenzy When AI expert and investigative journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission the organization was meant its leader Sam Altman told us to act as a check against more purely mercantile and potentially dangerous forces What could go wrong Over time Hao began to wrestle ever more deeply with that question Increasingly she realized that the core truth of this massively disruptive sector is that its vision of success requires an almost unprecedented amount of resources the compute power of high end chips and the processing capacity to create massive large language models the sheer volume of data that needs to be amassed at scale the humans cleaning up that data for sweatshop wages throughout the Global South and a truly alarming spike in the usage of energy and water underlying it all The truth is that we have entered a new and ominous age of empire only a small handful of globally scaled companies can even enter the field of play At the head of the pack with its ChatGPT breakthrough how would OpenAI resist such temptations Spoiler alert it didn't Armed with Microsoft's billions OpenAI is setting a breakneck pace chased by a small group of the most valuable companies in human history toward what end not even they can define All this time Hao has maintained her deep sourcing within the company and the industry and so she was in intimate contact with the story that shocked the entire tech industry Altman's sudden firing and triumphant return The behind the scenes story of what happened told here in full for the first time is revelatory of who the people controlling this technology really are But this isn't just the story of a single company however fascinating it is The forces pressing down on the people of OpenAI are deforming the judgment of everyone else too as such forces do Naked power finds the ideology to cloak itself no one thinks they're the bad guy But in the meantime as Hao shows through intrepid reporting on the ground around the world the enormous wheels of extraction grind on By drawing on the viewpoints of Silicon Valley engineers Kenyan data laborers and Chilean water activists Hao presents the fullest picture of AI and its impact we've seen to date alongside a trenchant analysis of where things are headed An astonishing eyewitness view from both up in the command capsule of the new economy and down where the real suffering happens Empire of AI pierces the

veil of the industry defining our era     **Governing Pandora** Andrea Bonime-Blanc,2026-02-02 A road map for developing responsible and innovative governance systems based on generative AI and other exponential technologies As exponential technology rapidly advances leaders in every sector are faced with the challenge of harnessing its potential power while developing precautionary safeguards against its risks From generative artificial intelligence to the future of quantum computing these innovations are transforming the world at an unprecedented rate leaving decision makers unsure of how to maintain control and ensure responsible development Governing Pandora focuses on multiple exponential technologies in order to demonstrate how leaders can develop responsible and innovative governance systems This book equips leaders with frameworks and tools including a detailed five element exponential governance mind set to develop a more holistic tech governance approach for current and future waves of exponential tech Andrea Bonime Blanc encourages the development of a culture of collaboration across borders sectors and disciplines as technology takes on a bigger role in our ecosystem She explains the context risks and opportunities of the ongoing exponential technology revolution so that leaders can futureproof themselves their organizations and key stakeholders with strategies and tactics to act responsibly ethically and successfully This book speaks directly to executives board members policymakers and organizational leaders who are tasked with charting a course through the advancement of modern technologies Governing Pandora bridges the gap between exploring pure technology and managing and governing applied technology Readers will learn not only how to develop a governance mind set for exponential technology but also how to build organizational resilience     **The Billboard** ,1949     Harper's Young People ,1892     **Natural Language Processing in Action, Second Edition** Hobson Lane,Maria Dyshel,2025-02-25
