**PC/Computing**, 1996-07 *Annual Review of Nursing Research, Volume 34*, 2015-12-20 This groundbreaking annual review has provided over three decades of knowledge, insight, and research on topics critical to the field of nursing. The 34th volume presents abundant new research devoted to examining and forwarding the field of modern ethics in nursing. It reflects the rapid acceleration of change in the roles and responsibilities of nurses and the concurrent need for reexamination of professional ethical values. Articles focus on creating nurses who are able to negotiate, adapt, and provide excellent care to patients as they take on greater administrative duties, rely more on technology, and assume some of the roles and responsibilities of physicians. Chapters are comprised of carefully selected articles that underscore the importance of in-depth ethical education and professional character development in the nursing classroom and its continued evolution as nurses adapt to a changing health care environment throughout their careers. They include examples of contemporary health

care dilemmas and how nurses have used ethical values to guide their behavior in situations where they encounter highly vulnerable patients address ethical problems relating to family issues such as self neglect and the wellbeing of children in military families and systems of care issues regarding genetics smart home technologies for older adults interprofessional collaboration and post deployment reintegration Key Topics Nursing Ethics A Lifelong Commitment Ethical Analysis of Family Impact of Mental Health Stigma Ethical Issues in Family Care Ethical Considerations in Self Neglect The Effects of Parental Service on the Wellbeing of our Youngest Military Members Ethics of Genetics in Primary Care Ethics of Smart Home Technologies for Older Adults Post Deployment Reintegration The Ethics of Embodied Personal Presence and the Formation of Military Meaning Ethical Issues Encountered by Military Nurses Smart Homes For Dummies Danny Briere,Hurley,2003-01-03 Most people have had some contact with a network through their work environment computer local area networks LANs in the office control networks in factories telephone networks in many mid sized or larger businesses The Internet itself is one big network Although some folks may think of a network as simply something that helps them do their work the network concept has begun to move from the workplace to the home address Smart home builders and remodelers and forward looking owners of otherwise perfect existing homes are starting to think in terms of wiring or wirelessing their homes both to make use of a network today and to prepare for future structural requirements Smart Homes For Dummies 2nd Edition lays out a richly landscaped spread of possibilities in networking your home devices for convenience cost control time savings safety and increased property values This forward thinking fun guide spells out how to Imagine all the cool stuff that home networks can do Make your home an entertainment center Plan a phone system Design a home based LAN Wire a security system Install and configure all the gizmos Smart homes never want for innovation people are constantly inventing things Stuff that seems niche oriented and expensive today may be high volume consumer products tomorrow Smart Homes For Dummies 2nd Edition invites you to take advantage of the latest techno developments as you rev up for the upcoming gee whiz things that ll make your home a twenty first century castle You ll meet the most recent information and insight on Figuring how much you re willing to spend Connecting your kitchen appliances and more Feeding audio and video from your Media Center Accessing the Internet all over your house Integrating a satellite system to create a video network Untangling cables and components Seeing what s just over the horizon for telephone service A home network opens the world to your entire household and Smart Homes For Dummies 2nd Edition provides a plan for your home sweet home to enjoy all that awaits in an infinite space *Proceedings of the Fourth Euro-China Conference on Intelligent Data Analysis and Applications* Pavel Krömer,Enrique Alba,Jeng-Shyang Pan,Václav Snášel,2017-09-23 This book highlights recent advances in intelligent data analysis computational intelligence signal processing and all associated applications of artificial intelligence It gathers papers presented at the ECC 2017 the Fourth Euro China Conference on Intelligent Data Analysis and Applications The aim of the ECC was to provide an internationally respected forum for scientific research in the broad areas
