Interdisciplinary Research in Technology and Management Satyajit Chakrabarti, Rintu Nath, Pradipta Kumar Banerji, Sujit Datta, Sanghamitra Poddar, Malay Gangopadhyaya, 2021-09-14 The conference on Interdisciplinary Research in Technology and Management was a bold experiment in deviating from the traditional approach of conferences which focus on a specific topic or theme. By attempting to bring diverse inter related topics on a common platform the conference has sought to answer a long felt need and give a fillip to interdisciplinary research not only within the technology domain but across domains in the management field as well. The spectrum of topics covered in the research papers is too wide to be singled out for specific mention but it is noteworthy that these papers addressed many important and relevant concerns of the day.

Urban and Regional Planning and Development Rajiv R. Thakur, Ashok K. Dutt, Sudhir K. Thakur, George M. Pomeroy, 2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed. It addresses questions such as What are the factors affecting planning dynamics at local, regional, national and global scales? With the push to adopt a market paradigm in land development and infrastructure, the relationship between resource management, sustainable development and the role of governance has been transformed. Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia, Africa and Latin America. Further attempts are being made to bring planning related decision making closer to the people who are most affected by it. Presenting a collection of studies from scholars around the world and highlighting recent advances in the field, the book is a valuable reference guide for those engaged in urban transformations whether as graduate students, researchers, practitioners or policymakers.

Ebook: Managerial Economics and Organizational Architecture Brickley, 2015-05-16 Ebook Managerial Economics and Organizational Architecture Introduction to Information Systems R. Kelly Rainer, Brad Prince, Cristobal Sanchez-Rodriguez, Ingrid Splettstoesser-Hogeterp, Sepideh Ebrahimi, 2020-09-29 As digital transformation becomes increasingly central to effective corporate strategy, today's students must understand information systems' role as the backbone to all organizations. Known for its rich Canadian content and focus on active learning, Introduction to Information Systems Fifth Canadian Edition shows students how they can use IS to help their employers increase profitability, improve customer service, manage daily operations and drive impact in their markets. The popular What's in IT for Me framework empowers students in accounting, finance, marketing, human resources, production, operations management and management information systems (MIS) to connect their majors to specific IT topics and demonstrate value in the organizations they join. *Mergers, Acquisitions, and Other Restructuring Activities* Donald DePamphilis, 2019-08-13 Mergers, Acquisitions, and Other Restructuring Activities: An Integrated Approach to Process Tools, Cases, and Solutions Tenth Edition is the most comprehensive and cutting edge text available on the subject. Supported by recent peer-reviewed academic research, this book provides many recent, notable deals, precedent setting judicial decisions,

government policies and regulations and trends affecting M&As as well as takeover strategies and tactics. Today's policies, politics and economics are reflected in the book's 40 case studies, 90% of which involve deals either announced or completed during the last several years. These cases represent friendly, hostile, highly leveraged and cross border transactions in ten different industries involving public and private firms and those experiencing financial distress. Sections discuss an overview of M&As, key regulations, common strategies and tactics, how managers may choose a business strategy from available options, valuation methods and basic financial modeling techniques, the negotiating process, how deal structuring and financing are inextricably linked, how consensus is reached during the bargaining process, the role of financial models in closing the deal and strategic growth options as alternatives to domestic M&As.

Informationweek, 2000 **The Industry Standard**, 2000-07 **Business Week**, 2001 **Strategic Financial Management Casebook** Rajesh Kumar, 2017-01-05

Strategic Financial Management Casebook strategically uses integrative case studies, cases that do not emphasize specific subjects such as capital budgeting or value based management, to provide a framework for understanding strategic financial management. By featuring holistic presentations, the book puts readers into the shoes of those responsible for the world's largest wealth creators. It covers strategies of growth, mergers and acquisitions, financial performance analysis over the past decade, wealth created in terms of stock returns since its listing in stock market, investment and financial decisions, cost of capital and corporate valuation. In addition, the casebook also discusses corporate restructuring activities undertaken by each company. Each chapter follows a template to facilitate learning and each features an Excel based case analysis worksheet that includes a complete data set for financial analysis and valuation. Introduces a conceptual framework for integrating strategy and finance for value creation. Emphasizes the roles of corporate governance, corporate social responsibility and risk management in value creation. Encourages an analysis of investment financing and dividend decisions. Examines non-financial factors that contribute to value.
