Airpods Today Clearance:

The Ridiculously Simple Guide to Apple Services Scott La Counte,2019-09-20 It used to be a few times a year Apple would take the stage and announce something that everyone s head exploded over The iPhone The iPad The Apple Watch The iPod That still happens today but Apple also is well aware of the reality most people don t upgrade to new hardware every year How does a company make money when that happens In a word services In the past few years especially in 2019 Apple announced several services things people would opt into to pay for monthly It was a way to continue making money even when people were not buying hardware For it to work Apple knew it had to be good They couldn t just offer a subpar service and expect people to pay because it said Apple It had to be good And it is This book will walk you through those services and show you how to get the most out of them

MacOS Catalina for Seniors Scott La

Counte,2019-10-19 There s a pretty good chance your first computer was a Windows computer of maybe even just DOS MacOS isn t complicated but switching from another operating system can be a little confusing at first This guide is intended to help you make the switch If you want to know how to do all those Windows things on a Mac then this book will help you This book is intended for people who want to get started quickly with the OS For that reason it s not as comprehensive as other guides It covers the most popular features but not how to do configurations you probably have never heard of and will never want to do I purposely have done my best to make this handbook a little more casual and fun than what you expect from most MacOS manuals MacOS is a fun operating system and any guide you read should be an equally fun read Each chapter starts with bullet points on what will be covered so if it s something you already know you can skip right ahead if you only need to know how to use new features the book is also formatted in a way that these stand out Are you ready to start enjoying the new MacOS Then let s get started
