Evaluating and Responding to

College Guidebooks and Rankings R. Dan Walleri,Marsha K. Moss,1995-12-27 The proliferation of college guidebooks and reputational rankings has become of increasing concern to many in the higher education community Public relations and admissions staff view such publications from a marketing perspective and the potential positive or negative consequences for enrollment College presidents share these concerns along with the broader implications for the overall stature of their institutions The validity and integrity of the information reported is of particular interest to those who work in the area of institutional research Acknowledging the fact that the public the consumers has a great need for information about different institutions in order to make informed college choices for themselves or their children all of these groups in higher education share alarm about the burden imposed on institutions in responding to the ever increasing number of publishers requesting information for these guidebooks and rankings This volume explores some of the major facets of and issues surrounding college guidebooks and ratings The background and development of these publications are traced followed by discussion of major issues and perspectives consumer use of the publications validity of ratings and the institutional burden of supplying the needed information View from both the institutions and the publishers are presented This is the 88th issue of the quarterly journal New Directions for Institutional Research For more information on the series please see the Journals and Periodicals page

Rankings and the Reshaping of Higher Education Ellen Hazelkorn,2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn s first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars

The Opinionated University Brian Soucek,2026-01-08 Why institutional neutrality is nothing but an illusion Can a university ever truly be neutral in today s social and political climate Pushing against the tide of universities increasingly pledging to stay neutral about contentious issues law professor Brian Soucek argues that their promises are doomed to fail universities can t help being opinionated In The Opinionated University Soucek shows that neutrality is a myth by taking a deep dive into several prominent campus controversies of the day including diversity equity and inclusion DEI efforts and restrictions on campus speech and protest Each issue requires universities to choose a side in what they do if not also in what they say In everything from curricular and admissions decisions to their response to outside rankings and their evaluation of faculty universities express the values at the heart of their mission Soucek argues that those pushing for neutrality are only preventing universities from standing

up for their values whether in today's current moment of crisis or in periods of political calm Both timely and deeply engaging The Opinionated University calls on universities to dispense with neutrality as a governing principle and focus instead on what their mission should be and who should determine it **Quality Assurance and University Rankings in Higher Education in the Asia Pacific** ,2009 **The College Board Review** ,2006 [U.S. News & World Report](#) ,2007
