## **Origins Of The State And Civilization The Process Of Cultural Evolution:**

**Origins of the State and Civilization** Elman Rogers Service, 1975      *World Military History Bibliography* Barton Hacker, 2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967-1997. Classical antiquity, post-Roman Europe, and the westernized armed forces of the 20th century, although covered, receive less systematic attention. Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles. Especially rich in references to the periodical literature, the bibliography is divided into eight parts: 1. general and comparative topics; 2. the ancient world; 3. Eurasia since antiquity; 4. sub-Saharan Africa and Oceania; 5. pre-Columbian America; 6. postcontact America; 7. the contemporary nonwestern world; and 8. philosophical, social, scientific, natural, scientific, and other works not primarily historical.

**The Early State in African Perspective**, 2023-07-24 The essays in this volume are the product of an interdisciplinary research seminar on The Early State in Africa conducted during the 1979-1980 academic year at the Hebrew University of Jerusalem. This seminar was one of a series of seminars on comparative civilizations. The participants included historians, sociologists, political scientists, and specialists in comparative religion who shared an interest in the emergence and dynamics of the state in Africa and were concerned with trying to understand its origins and its various manifestations on the continent.

**The Creation of Patriarchy** Gerda Lerner, 1986 A radical reinterpretation of Western civilization argues that male dominance has resulted from and can be ended by historical process and identifies key developments.

**Ancient Pakistan - An Archaeological History** Mukhtar Ahmed, 2014-10-25 This book is the fifth and the last volume of a much larger project, *Ancient Pakistan: An Archaeological History*, which deals with the prehistory of Pakistan from the Stone Age to the end of the Indus Civilization. This volume deals with the decay and demise of the Indus Civilization and its devolution into post-Harappan regional cultures under the impact of the intruding pastoral nomads from the West, the Indo Aryans being one of them. A comprehensive bibliography is provided for those who want to dig deeper into the subject.

***Shamanism and the Origin of States*** Sarah M. Nelson, 2008 Sarah Milledge Nelson's bold thesis is that the development of states in East Asia (China, Japan, Korea) was an outgrowth of the leadership in smaller communities guided by shamans. Using a mixture of historical documents, mythology, archaeological data, and ethnographic studies of contemporary shamans, she builds a case for shamans being the driving force behind the blossoming of complex societies. More interesting, shamans in East Asia are generally women who used their access to the spirit world to take leadership roles. This work challenges traditional interpretations of the growth of Asian states, which is overlaid with later Confucian notions of gender roles. Written at a level accessible for undergraduates, this concise work will be fascinating reading for those interested in East Asian archaeology, politics, and society in gender roles and in shamanism.
