Other Worldly Making Chinese Medicine Through Transnational Frames:

Other-Worldly Mei Zhan,2009-11-09 A transnational ethnography of traditional Chinese medicine practitioners in China and the US

Integrating East Asian Medicine into Contemporary Healthcare E-Book Volker Scheid,Hugh MacPherson,2011-10-24 Traditional East Asian healthcare systems have moved rapidly from the fringes of healthcare systems in the West towards the centre over the past 50 years This change of status for traditional medicines presents their practitioners with both opportunities and challenges as the focus shifts from one of opposition towards one of integration into biomedically dominated healthcare systems Integrating East Asian Medicine into Contemporary Healthcare examines the opportunities and challenges of integrating East Asian medicine into Western healthcare systems from an interdisciplinary perspective Volker Scheid and Hugh MacPherson bring together contributions from acknowledged experts from a number of different disciplines including clinical researchers Chinese Medicine practitioners historians medical anthropologists experts in the social studies of science technology and medicine to examine and debate the impact of the evidence based medicine movement on the ongoing modernization of East Asian medicines The book considers the following questions What are the values goals and ethics implicit within traditional East Asian medical practices What claims to effectiveness and safety are made by East Asian medical practices What is at stake in subjecting these medical practices to biomedical models of evaluation What constitutes best practice How is it to be defined and measured What are the ideologies and politics behind the process of integration of East Asian medical practices into modern health care systems What can we learn from a variety of models of integration into contemporary healthcare

Other-Worldly Mei Zhan,2009-11-09 Traditional Chinese medicine is often portrayed as an enduring system of therapeutic knowledge that has become globalized in recent decades In Other Worldly Mei Zhan argues that the discourses and practices called traditional Chinese medicine are made through rather than prior to translocal encounters and entanglements Zhan spent a decade following practitioners teachers and advocates of Chinese medicine through clinics hospitals schools and grassroots organizations in Shanghai and the San Francisco Bay Area Drawing on that ethnographic research she demonstrates that the everyday practice of Chinese medicine is about much more than writing herbal prescriptions and inserting acupuncture needles Traditional Chinese medicine is also made and remade through efforts to create a preventive medicine for the proletariat world reinvent it for cosmopolitan middle class aspirations produce clinical miracles translate knowledge and authority and negotiate marketing strategies and medical ethics Whether discussing the presentation of Chinese medicine at a health fair sponsored by a Silicon Valley corporation or how the inclusion of a traditional Chinese medicine clinic authenticates the California appeal of an upscale residential neighborhood in Shanghai Zhan emphasizes that unexpected encounters and interactions are not anomalies in the structure of Chinese medicine Instead they are constitutive of its irreducibly complex and open ended worlds Zhan proposes an ethnography of worlding as an analytic for engaging and illuminating emergent cultural processes such as those she describes Rather than

taking cultural difference as the starting point for anthropological inquiries this analytic reveals how various terms of difference for example traditional Chinese medicine are invented negotiated and deployed translocally Other Worldly is a theoretically innovative and ethnographically rich account of the worlding of Chinese medicine **Routledge Handbook of Chinese Medicine** Vivienne Lo,Michael Stanley-Baker,2022-06-19 The Routledge Handbook of Chinese Medicine is an extensive interdisciplinary guide to the nature of traditional medicine and healing in the Chinese cultural region and its plural epistemologies Established experts and the next generation of scholars interpret the ways in which Chinese medicine has been understood and portrayed from the beginning of the empire third century BCE to the globalisation of Chinese products and practices in the present day taking in subjects from ancient medical writings to therapeutic movement to talismans for healing and traditional medicines that have inspired global solutions to contemporary epidemics The volume is divided into seven parts Longue Dur e and Formation of Institutions and Traditions Sickness and Healing Food and Sex Spiritual and Orthodox Religious Practices The World of Sinographic Medicine Wider Diasporas Negotiating Modernity This handbook therefore introduces the broad range of ideas and techniques that comprise pre modern medicine in China and the historiographical and ethnographic approaches that have illuminated them It will prove a useful resource to students and scholars of Chinese studies and the history of medicine and anthropology It will also be of interest to practitioners patients and specialists wishing to refresh their knowledge with the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license Indigeneity on the Move Eva Gerharz,Nasir Uddin,Pradeep Chakkarath,2017-12-29 Indigeneity has become a prominent yet contested concept in national and international politics as well as within the social sciences This edited volume draws from authors representing different disciplines and perspectives exploring the dependence of indigeneity on varying sociopolitical contexts actors and discourses with the ultimate goal of investigating the concept s scientific and political potential **Asian Anthropology** ,2010 **The World Multiple** Keiichi Omura,Grant Jun Otsuki,Shiho Satsuka,Atsuro Morita,2018-11-06 The World Multiple as a collection is an ambitious ethnographic experiment in understanding how the world is experienced and generated in multiple ways through people s everyday practices Against the dominant assumption that the world is a single universal reality that can only be known by modern expert science this book argues that worlds are worlded they are socially and materially crafted in multiple forms in everyday practices involving humans landscapes animals plants fungi rocks and other beings These practices do not converge to a singular knowledge of the world but generate a world multiple a world that is more than one integrated whole yet less than many fragmented parts The book brings together authors from Europe Japan and North America in conversation with ethnographic material from Africa the Americas and Asia in order to explore the possibilities of the world multiple to reveal new ways to intervene in the legacies of colonialism imperialism and capitalism that inflict damage on humans and

nonhumans The contributors show how the world is formed through interactions among techno scientific vernacular local and indigenous practices and examine the new forms of politics that emerge out of them Engaged with recent anthropological discussions of ontologies the Anthropocene and multi species ethnography the book addresses the multidimensional realities of people's lives and the quotidian politics they entail **Bodies in Balance** Theresia Hofer,2017-03-24 2015 Best Art Book Accolade ICAS Book Prize in the Humanities Category Bodies in Balance The Art of Tibetan Medicine is the first comprehensive interdisciplinary exploration of the triangular relationship among the Tibetan art and science of healing Sowa Rigpa Buddhism and arts and crafts This book is dedicated to the history theory and practice of Tibetan medicine a unique and complex system of understanding body and mind treating illness and fostering health and well being Sowa Rigpa has been influenced by Chinese Indian and Greco Arab medical traditions but is distinct from them Developed within the context of Buddhism Tibetan medicine was adapted over centuries to different health needs and climates across the region encompassing the Tibetan Plateau the Himalayas and Mongolia Its focus on a holistic approach to health has influenced Western medical thinking about the prevention diagnoses and treatment of illness Generously illustrated with more than 200 images Bodies in Balance includes essays on contemporary practice pharmacology and compounding medicines astrology and divination history and foundational treatises The volume brings to life the theory and practice of this ancient healing art *Itineraries for a Republic* Yajun Mo,2011 **Global Movements, Local Concerns** Laurence Monnais-Rousselot,Harold John Cook,2012 The contributors to this volume show how the practices of health in Southeast Asia over the past two centuries were mediated by local medical traditions colonial interests range of health agents and intermediaries **Bibliographic Index** ,2010 Healing Alternatives Nanami Suzuki,2014 **Oregon Historical Quarterly** Oregon Historical Society,2013 Translating Law and Lives Heath Cabot,2010 《中泰学者对泰中两国传统医学的比较研究》,《中泰学者对泰中两国传统医学的比较研究》,《中泰学者对泰中两国传统医学的比较研究》,2021 Articles about anthropological studies by various Thai scholars 《中泰学者对泰中两国传统医学的比较研究》,2011 China Review International ,2009 **Dissertation Abstracts International** ,2006 Knowledge Across Cultures Hilda Briks,1993 Frank Leslie's Illustrated Newspaper John Albert Sleicher,1877
