“Although we have engaged in similar conversations in the past, we have often been cut off by leaders. And we would not want to have an overly political, and certainly partisan, sharing session.” At the end of the first session, we asked to repeat items that others at the previous session made us aware they thought we thought they would be sharing at the end of the session. Several items:

3. "What has not contributed to this 'black cloud' of violence in America? Should we not rethink religion?"

4. "What is the danger regarding the spiritual connection?"

Our Kingdom Ministry 2014:

Shutting the Door to the Kingdom of God Eric Michael Wilson, 2022-08-20 This book uses the New World Translation of the Holy Scriptures to prove that all the teachings of Jehovah's Witnesses concerning the Last Days and the good news of salvation are unscriptural. The author, an elder of Jehovah's Witnesses for 40 years, shares the results of the last ten years of his research into such Watch Tower teachings as the 1914 invisible presence of Christ, the overlapping generation doctrine, the failed prophecies of 1925 and 1975, the fact that the Governing Body had evidence long ago showing that 607 BCE was not the date of the Babylonian exile, and most important of all, the abundant evidence that the salvation hope offered to the JW Other Sheep is a Rutherford invention wholly without support in Scripture. He also shares his experience on how Witnesses who continue to believe in Jehovah and Jesus can move beyond JW.org without sacrificing their faith. This is a must read for any Jehovah's Witness who is a seeker of truth and unafraid to put his or her beliefs to the test. *Jehovah's Witnesses*

George D. Chryssides, 2022-01-27 What would happen if I accepted an invitation to Bible Study from Jehovah's Witnesses? What would attending a Kingdom Hall meeting involve? And if I invited door knocking Witnesses into my home? This book introduces Jehovah's Witnesses without assuming prior knowledge of the Watch Tower organization. After outlining the Society's origins and history, the book explains their key beliefs and practices by taking the reader through the process of the seeker who makes initial contact with Witnesses and progresses to take instruction and become a baptized member. The book then explores what is involved in being a Witness: congregational life, lifestyle, rites of passage, their understanding of the Bible and prophetic expectations. It examines the various processes and consequences of leaving the organization, controversies that have arisen in the course of its history, and popular criticisms. Discussion is given to the likelihood of reforms within the organization, such as its stance on blood transfusions, the role of women, and new methods of meeting and evangelizing in response to the COVID-19 pandemic. Cyber Conflicts and Small States Lech J. Janczewski, William Caelli, 2016-09-17 The probability of a world wide cyber conflict is small. Yet the probability of forms of cyber conflict, regional or even global, could be argued as being very high. Small countries are usually signatories to military and economic alliances with major world powers but rely heavily on the technical ability of these powers in protecting their own national interests. They may be considered to be IT technology colonies. Their cyber infrastructure is usually fully imported and their ability to assess it is limited. This book poses the question to what extent should or can a small country prepare itself for handling the broad range of cyber threats. Looking at cyber warfare, cyber terrorism, cyber crime, and associated concerns, national experts from New Zealand, Australia, The Netherlands, and Poland present analyses of cyber defence realities, priorities, and options for smaller countries. They show that what is needed is the ability of small nations to be able to define and prepare appropriate responses, such as the role of

military law enforcement business entities continuity and resilience strategies incident response and business continuity plans and more for handling nationally aimed cyber attacks particularly where these address national critical infrastructures
