Outbound One The First Starship:

Outbound Robert A. Kaiser, 2012-04-01 OUTBOUND ONE THE FIRST STARSHIP is a fictional account of man's first attempt to leave our solar system by striking out in an interstellar journey to establish an outpost in a nearby star system containing an earth like planet. It presents a chronological account of the physical events encountered during this historic mission as well as the psychological reactions of both crew and passengers to this one way trip to the stars. It attempts to answer the recurring questions of the ability of the human race to survive interstellar space travel and to establish viable colonies beyond the limits of our home solar system or be doomed to repeat the mistakes of the past. Outbound One: The First Starship Robert A. Kaiser, 2012-04-16 Outbound One The First Starship is a fictional account of man's first attempt to leave our solar system by striking out in an interstellar journey to establish an outpost in a nearby star system containing an earth like planet. It presents a chronological account of the physical events encountered during this historic mission as well as the psychological reactions of both crew and passengers to this one way trip to the stars. It attempts to answer the recurring questions of the ability of the human race to survive interstellar space travel and to establish viable colonies beyond the limits of our home solar system or be doomed to repeat the mistakes of the past. Starship's Mage: Episode 1 Glynn Stewart, 2014-01-17 Starship's Mage is set in a future we would never have predicted where humanity's far flung interstellar colonies are tied together by the Protectorate of the Mage King of Mars and the magic of the Jump Mages. Damien Montgomery is a newly trained member of this elite order. Unable to find a ship to take him on, he joins the crew of a freighter as desperate as he is without looking hard enough at why they're desperate. Thus begins an adventure that will take him to the edges of known space and to the limits of his own magic. Starship's Mage Episode 1 is a 20,789 word novella, the first of five in a serial story. Episodes 2 and 3 are out now. *Liftoff: Elon Musk and the Desperate Early Days That Launched SpaceX* Eric Berger, 2021-03-02 Just read it! Elon Musk: The dramatic inside story of SpaceX, the world's leading edge rocket company whose charismatic and controversial founder now advises the White House. **Faster than Light** Robert J. Nemiroff, 2023-09-09 Albert Einstein knew already in the early 1900s when he first published his famous paper about the constancy of the speed of light that not only did this constancy imply that mass contains energy $E = mc^2$ but that faster than light motion could lead to paradoxes some that seemed to involve backwards time travel. What are these paradoxes? Why is light and its speed relevant? This book will lead you through an obstacle course of conundrums and oddities building up your understanding of how light's speed creates simple but mind expanding paradoxes one conceptual riddle at a time. This is not your average popular science book. This is also not a textbook. This book takes one theme, the universally constant speed of light, and shows how it may appear compromised on scales from the quantum mechanics of the very small to the cosmology of the very large and the resulting surprising implications can result. Book Review 1: Imagine embarking on a journey to comprehend the physics of the entire universe with a guide who's not only an expert but makes the concepts digestible and

entertaining Robert J Nemiroff offers such a journey in *Faster Than Light* a book that initially describes the speed of light then touches on subjects as esoteric as time travel using the theory of relativity and speculation on how to send information back in time among other subjects

blue ink Book Review 2 takes readers on a wild ride through the ins and outs of the speed of light in this mind bending guide His primary approach is through a series of humorous thought experiments explanations are clear and concise and most of them require only logic to sort out making the book more accessible than similar titles

Booklife Book Review 3 A fresh and joyous ride through the mind bending puzzles at the heart of nature s most fundamental speed that remind us that the universe is strange beyond belief

Martin Rees The world s leading expert on the human settlement of Mars explains what Martian societies will look like sooner than we think Within a few years humans will be able to voyage to Mars

SpaceX is at the forefront of companies already building fleets of spaceships to make interplanetary travel as affordable as Old World passage to America to the then New World We will settle the red planet transforming its raw materials into resources and tackling the challenges that await us creating a new frontier for humankind

Dr Robert Zubrin explains how populous Martian city states will emerge producing their own air water food power and more How they must be beautiful to attract settlers and what that might look like

How the primary exports are unlikely to be material goods but intellectual products created by a technically adept population in a frontier environment where people will be forced to innovate including GMOs robotics AI and power production

Zubrin even predicts the red planet s customs social relations and government of the people by the people for the people with inalienable individual rights that will overcome traditional forms of oppression to draw talented Earth immigrants

In 1776 Thomas Paine wrote We have it in our power to begin the world over again

Zubrin inspires us to embrace another magnificent future today With the right pieces in place his red planet will become a pressure cooker for invention benefiting humans on Earth Mars and beyond

Pink Knight C J Harvey,2019-03-06 Some ten thousand years ago Earth was visited by beings from another planet in the Barnard s Star system

The Babylonians recorded that beings they called the Oannes were amphibious creatures who came to Earth for the welfare of the human race

The historian Hellandus describes them as having fishlike features but the head feet and arms of a man

They instructed humans in everything a civilized nation should know

They built a city beneath Antarctica near the Davis Sea and have lived there peacefully and secretly ever since

But now a rogue Dwarf Star called Zarama

threatens the very existence of both Earth and the home planet Nazmos Their mythology predicts that a being from another planet will avert disaster Enter Ashley Bonner into this scenario He has been granted special gifts and the Oannes think he may be the predicted one Can Ashley really prevail against a star a third more massive than the sun This is the story of Ashley s development to manhood from age four to seventy and his ultimate sacrifice to save both worlds C J Harvey
