**Country Report** , 1986     **Miniatures** Daniel Pipes, 2018-04-17 The volatility of Muslim and Middle Eastern politics has made these interrelated topics an overriding preoccupation of world and especially U.S. politics Perhaps no region of the world has ever so dominated the American public discourse as the Middle East does today As Daniel Pipes shows this results mainly but not exclusively from the attacks of September 11 2001 and the ensuing war on terrorism Other sources of trouble include militant Islam Muslims in the West the Arab Israeli conflict the Iraq situation relations with Saudi Arabia the price of oil and gas and U.S. policy toward all these issues These are the central themes of the roughly one hundred essays in Daniel Pipes **Miniatures Views of Islamic and Middle Eastern Politics** As Pipes notes the Islamist war against America preceded the events of 9/11 Nevertheless response to the earlier attacks had been inconsistent and somewhat nonchalant Pipes shows how the State Department's annual report on Patterns of Global Terrorism veers into unreliability and even falsehood He explains the problem in George W. Bush trying to decide what is true Islam and what is not in U.S. academics hiding the true meaning of

the word jihad and in seventh grade textbooks proselytizing for Islam Pipes demonstrates that many seemingly devout Islamists are in fact impious frauds When it comes to the Arab Israeli conflict Pipes indicates how the failure of the Oslo process could be discerned as early as 1994 and he shows how Yasir Arafat speaks one way to Arabs and another way to Israelis This important collection by one of the foremost experts in the field presents original insights accessibly written for Middle East specialists political scientists policymakers journalists and the interested public Malaysian Long-term Outlook, 1991-2000 Kamal Salih,1990 *The Contemporary Middle East* Karl Yambert,2006 This volume of provocative contributions by an impressive array of leading scholars journalists and policy advisors provides a brief and accessible introduction to selected topical issues of the Middle East Academic contributors include Arthur Goldschmidt Jr William Cleveland Colbert Held Shibley Telhami David Lesch David E Long Bernard Reich Samih Farsoun and Phebe Marr among notable others complemented by contributions from former State Department official David Phillips senior journalists Mark Huband and Thomas Lippman and Pulitzer Prize winning reporter Anthony Shadid With an integrative opening essay by honored scholar Arthur Goldschmidt Jr The Contemporary Middle East is an invaluable new core text for courses introducing students to the current Middle East Its strategic pairing of topics Israel and Palestine Iran and Iraq Saudi Arabia and Egypt enhances student comprehension of comparison and context and ensures that students repeatedly re encounter key issues from a variety of perspectives Concise summaries introduce each chapter A new concluding chapter by Shibley Telhami candidly addresses fundamental questions about the United States and the Middle East today in question and answer format Student resources include a Select Bibliography by William Cleveland a Glossary a Brief Biographical Register and a Chronology in addition to numerous maps *108-1 Hearings: NATO Enlargement: Qualifications and Contributions - Parts I-IV, S. **NATO Enlargement** United States. Congress. Senate. Committee on Foreign Relations,2003 **Scuds or Butter?** Yahya M. Sadowski,2010-12-01 In the late 1970s and 1980s Middle Eastern states spent more than 600 billion expanding their military forces They acquired thousands of tanks advanced fighter aircraft ballistic missiles chemical weapons and in some cases nuclear devices These potent arsenals make the Middle East the tinderbox of world affairs In this book foreign policy analyst Yahya Sadowski shows that the arms race cannot be sustained in the 1990s Declining oil prices overpopulation economic mismanagement and foreign policy adventures such as the 1992 Gulf War which cost local states another 600 billion have sapped the economies of the Middle East Facing dwindling incomes and rising expenses growing numbers of Middle Easterners now favor diverting funds away from military expenditures and concentrating them on economic development programs Sadowski argues that arms control programs for the Middle East should be designed to reinforce and

exploit these economic pressures for demilitarization He examines the strengths and weaknesses of various arms control proposals such as the U S call for a cartel of weapons exporters and a Jordanian plan to liquidate the foreign debt of states that curb military expenditures     **The New York Times Index** ,2005
