Outspoken Conversations On Church Communication:

Outspoken Tim Schraeder, 2011-09-02 A guide for church leaders to improve the communication of their message by leveraging new media to effectively connect people with the gospel Viral Leonard Sweet, 2012-03-13 The gospel is nothing without relationship And no one gets it like the Google Generation God came to earth to invite us personally into a relationship And while Christians at times downplay relationships the social media generation is completely sold on the idea In Viral Leonard Sweet says Christians need to learn about connecting with others from the experts those who can't seem to stop texting IMing tweeting and updating their Facebook statuses What would happen he asks if Christians devoted less attention to strategies and statistics and paid more attention to pursuing relationships The current generation is driven by a God given desire to know others and to be known by others Most of them in seeking to connect in meaningful ways have found a place of belonging that is outside the organized church Why not bring the two together Those who are sold out to relationships can teach Christians how to be better friends to people who need God At the same time members of the social media generation can learn how to follow their desire for belonging straight into the arms of God It's time for relationship to be restored to the heart of the gospel And when that happens can revival be far behind End of Chapter Interactives Included

Church, State and Society in Kenya Galia Sabar, 2012-12-06 This volume offers a debate on the role of Christianity in post colonial Kenya charting the role of the church state and society in the transformation of Kenya and the relationship between the three It shows how the church initiated health education and economic activities showing it to be a major instrument of transformation Origins of a Spontaneous Revolution Karl-Dieter Opp, Peter Voss, Christiane Gern, 1995 November 1989 East Germans danced on the Berlin wall and the Communist regime began to collapse A unique revolution occurred changes were brought about by peaceful spontaneous demonstrations No group organized the famous gatherings of thousands of people at the Karl Marx Square in Leipzig on October 9 1989 Why did so many citizens participate although they risked their lives Why were the demonstrations peaceful How was it possible that so many people demonstrated without any organization What part did the church and opposition groups play in the emergence of the revolution Why didn't the government crack down the demonstrations How did political events such as the liberalization in Eastern Europe influence the demonstrations In a readable and accessible style *Origins of Spontaneous Revolution* provides an explanation of this revolution based in rational actor theory The authors support their arguments with documents jokes and a unique data set one year after the revolutionary events a representative survey of 1300 Leipzig residents was conducted focusing exclusively on the revolutionary period This book will be of interest to sociologists and other social scientists such as historians and political scientists Karl Dieter Opp Peter Voss and Christiane Gern are members of the faculty of the Institute of Sociology University of Hamburg *Asian American Identities, Relationships, and Post-Migration Legacies* Jessica ChenFeng, Lana Kim, 2024-10-04 Bringing together the personal and professional narratives of Asian American family therapists this book

offers insight into the Asian American experience through systemic theory and frameworks individual and community stories and clinical considerations The Asian American experience is still a largely invisible and unknown one especially in the field of marriage and family therapy With a contextual lens this book highlights how understanding family migration legacies and individual generational status relative to time place and context is critical to doing meaningful work with Asian Americans Filled with thought provoking case studies and reflective questions chapters discuss the impact of stereotyping on mental health the historical and present ways that Asian American racialization invisibilizes individual and collective experiences shame associated with bicultural identity gender generational trauma media representations and more Each chapter bridges these ideas to clinical practice while concurrently centering the voices and experiences of Asian American therapists This book is essential reading for marriage and family therapists and other mental health clinicians who want to deepen their understanding of relationship with and clinical support for the Asian Americans in their lives whether friends colleagues supervisees or clients
