Handbook of Pricing Research in Marketing Vithala R. Rao, 2009 Pricing is an essential aspect of the marketing mix for brands and products. Further pricing research in marketing is interdisciplinary utilizing economic and psychological concepts with special emphasis on measurement and estimation. This unique Handbook provides current knowledge of pricing in a single authoritative volume and brings together new cutting edge research by established marketing scholars on a range of topics in the area. The environment in which pricing decisions and transactions are implemented has changed dramatically mainly due to the advent of the Internet and the practices of advance selling and yield management. Over the years marketing scholars have incorporated developments in game theory and microeconomics behavioral decision theory psychological and social dimensions and newer market mechanisms of auctions in their contributions to pricing research. These chapters specifically written for this Handbook cover these various developments and concepts as applied to tackling pricing problems. Academics and doctoral students in marketing and applied economics as well as pricing focused business practitioners and consultants will appreciate the state of the art research herein.
