## Roblox Events Update 2025:

*Digital China: Metaverses For Business* Ashley Dudarenok, 2023-03-20 While the hype surrounding the metaverse has waned its importance from a tech perspective hasn't. This book will help all those who have wondered what a metaverse is what it's for how much it's worth which companies are creating it which countries are ahead of the game and how businesses are using metaverses and Web3. This book is for brands that want to understand the next iteration of the internet how to use it now and in the future to connect with customers and how to future proof your business. There are different perceptions of and approaches to the metaverse and Web3 in different countries. This book helps you to understand those differences and the impact they may have on your company.

**QUOTES FROM THE BOOK**

The metaverse is the next iteration of the internet we have been building for the last 40 years but in a 3D realm vs the text picture and video web we have today. When it arrives in the next 5-10 years it will encompass all facets of our lives from school to work to play and everything in between. And from now to then there will be many rocky roads as the world and China figure out how to actually build such a solution and all the rules needed to properly operate it.

Alvin Wang, Graylin China President Global VP of Corporate Development at HTC. Some people believe there should be one metaverse where many virtual worlds exist inside that one mega metaverse. But this is the most idealized version of how society or the internet operates. Judging by what tech companies are doing at this early stage it's clear that they want to keep their walled gardens up for as long as they can.

Nina Xiang, Author of *Parallel Metaverses*. New revenue streams and business models present a whole new level of possibility for brands to reach their customers and fans. It's not just about monetary conversions. It's another touchpoint and becomes a layer of experiential reimaged and immersive experience to further enhance a brand's story. Co-creation and community activation will play a significant role in delivering to the community.

EDUCATION 6.0 KHRITISH SWARGIARY, 2026-01-01

As the author of Education 6.0 Envisioning the Symbiotic Future of Learning and Innovation I am profoundly humbled and inspired to present this work at a pivotal moment in human history. We stand on the threshold of an era defined by unprecedented technological convergence where artificial intelligence, quantum computing, bio digital interfaces and regenerative systems are reshaping not only industries but the very essence of how we learn, create and coexist with intelligent machines. Education 6.0 as envisioned in these pages represents a bold forward looking paradigm that extends beyond the human centric resilience of Education 5.0 and Industry 5.0. It embraces a symbiotic future in which humans and advanced technologies co-evolve ethically, sustainably and equitably to address grand challenges like climate crises, skill obsolescence and global inequities. This book emerges from my deep passion for educational transformation informed by years of research into emerging technologies, pedagogy and policy. Drawing on historical trajectories from ancient Gurukuls and hierarchical rote systems to the digital integrations of Education 3.0 and 4.0, I propose Education 6.0 as a holistic framework aligned with the nascent visions of Industry 6.0. Central to this is the original LIKEMS framework: Leadership, Innovation, Knowledge, Skills, Industry, Manufacturing, Maker Centered Practices, Entrepreneurship and Sustainability, designed to cultivate sovereign learners who lead ethical innovation, harness symbiotic intelligence and steward planetary resources. Written amid rapid advancements as of late 2025, this volume synthesizes empirical evidence, real world implementations and speculative yet rational projections to guide educators, policymakers, researchers and innovators. My hope is that it sparks collaborative action toward learning ecosystems where technology amplifies human potential without diminishing agency, empathy or well-being. Education 6.0 is not merely an adaptation to change; it is a call to co-create a harmonious innovative world for generations to come. KHRITISH SWARGIARY AKA KS Luminar Assam India Jan 2026

*Unveiling Social Dynamics and Community Interaction in the Metaverse* Gupta, Brij, 2025-04-16

As the metaverse transforms social dynamics and community interactions, security becomes essential to fostering trust and meaningful engagement in virtual spaces. Protecting users from threats like identity theft, harassment, and misinformation is crucial to maintaining safe and inclusive digital communities. The intersection of security and social interaction influences how people form relationships, collaborate, and express themselves in virtual environments. Strong security frameworks help prevent exploitation while enabling positive social experiences, ensuring that digital communities can thrive without fear of manipulation or harm. By addressing these challenges, metaverse security plays a key role in shaping the future of online socialization and digital citizenship. *Unveiling Social Dynamics and Community Interaction in the Metaverse* explores the intersection of security and social dynamics in the metaverse, examining how digital trust, identity protection, and community safety shape virtual interactions. It provides insights into emerging threats, ethical considerations, and strategies for fostering secure and inclusive virtual environments. Covering topics such as community detection, fake review detection, and affective computing, this book is an excellent resource for cybersecurity professionals, metaverse developers, policymakers, technicians,

researchers professionals scholars academicians and more
