The last Fall Dhanunjaya Naidu Ch,2026-01-03 A boy called an idiot A girl who became his only light A love

story that healed him and broke him Their journey began with a random chat turned into hope and ended in a silence that changed everything The Last Fall is a true story of love distance heartbreak and the courage to wait even when the world gives up Some Falls destroy you Some falls teach you how to rise th

Sacrificial Lambs Anita Bartholomew,2025-11-04 Today more than 1 in 20 teens say they are transgender or gender questioning an order of magnitude higher than just a decade ago How is it possible that so many youngsters within just a matter of years became persuaded that they d been born in the wrong body As liberal journalist Anita Bartholomew reveals in Sacrificial Lambs the answer lies not with gender confused children but rather with our most trusted institutions and the adults who run them the medical professionals who transition children to facsimiles of the opposite sex before they are old enough to know what sex is the teachers who tell kindergarteners that doctors only guessed their sex at birth and the mainstream media outlets that label chemical and surgical experiments on children as life saving care Exposing the many lies and mistruths of gender ideology Bartholomew shows that every progressive argument you ve heard in favor of it is wrong Even if you consider yourself a supporter of the trans movement once you ve seen the breadth and depth of how gender ideology has harmed young people emotionally psychologically and physically you might reassess what it means to be an ally

Culturally Responsive and Sustaining Science Teaching Elaine V. Howes,Jamie Wallace,2024-04-18 How can research into culturally responsive and sustaining

education CRSE inform and transform science teaching and learning What approaches might teachers use to study CRSE in their classrooms What are teachers learning from their research that might be transferable to other classrooms and schools

In this practical resource teacher researchers from the Culturally Responsive and Sustaining Education Professional

Learning Group based in New York City provide insights for educators on how to address complex educational and sociocultural issues in the science classroom. Highlighting wide ranging and complex problems such as the COVID 19 pandemic and racial injustice and how they affect individual science instruction settings with a particular focus on urban and high need school environments. Chapters examine and describe what CRSE is and means for science teaching. Through individual and collaborative research studies, chapters help readers understand various approaches to developing and implementing CRSE strategies in their classrooms and promote students' identification with and affinity for science. Teachers describe the questions driving their investigations, data and findings, and reflect on their roles as agents of change. Chapters also feature discussion and reflection questions and include examples of assignments, protocols, and student work that teachers have piloted in their classes. This book is ideal for pre-service and in-service science teachers and teacher educators across grade levels. It provides support for professional learning activities as well as undergraduate and graduate teacher education courses. It may be particularly useful in science methods, multicultural education, and diversity, equity, and inclusion courses with a focus on CRSE. This book not only defines one group's approach to CRSE in science education but also takes the next step to show how CRSE can be applied directly to the science classroom.

[Fashion-ology](#) Yuniya

Kawamura, 2023-07-13 This new edition of a classic work offers a concise introduction to the sociology of fashion and demystifies the workings of the fashion system. From the origins of fashion studies and the difference between clothing and fashion through to an examination of 21st century subcultures and the impact of the digital age on designers. *Fashion-ology* explores fashion as a global institutionalized system. With accessible overviews of key debates, issues, and perspectives, Yuniya Kawamura provides a complete exploration of the field. Two new chapters have been added for this third edition, covering The Diversification and Changing Landscapes of Fashion Systems and Ecological and Social Sustainability in Fashion, respectively. There's also more on the metaverse as the latest fashion system, the de-Westernization of fashion, postmodern discourse on fashion's relationship to race, gender, and class, social media as consumption, production, evaluation, and marketing, fashion weeks including Modest Fashion Week, Black Fashion Week, the Global Sustainability Fashion Week, and Queer Fashion Week. There's also a guide to sociological research in fashion, making this essential reading for anyone studying fashion sociology, anthropology, or cultural studies.
