Roads Less Traveled and Other Perspectives on Nationally Competitive Scholarships National Association of Fellowships Advisors. Biennial Conference, 2017-08-01 Applying for nationally competitive scholarships can be a daunting process for students. Thousands apply each year for scholarships with familiar names like the Rhodes Marshall Gates Cambridge Schwarzman Fulbright Truman Goldwater Udall and Madison or for one of many STEM opportunities like National Science Foundation Graduate Research Fellowships or National Defense Science and Engineering Fellowship. For many the applications present an unfamiliar territory so students seek out informed advisors who can help them navigate the terrain. This volume of essays is a great way for anyone advising students through an application to become an expert. *Roads Less Traveled and Other Perspectives on Nationally Competitive Scholarships* provides critical information from scholarship foundations about the best ways to guide students from considering a career path to completing the application to preparing for an interview. Experienced advisors also share helpful tips on practical topics like writing letters of endorsement or assisting those who want to study abroad and they provide programmatic advice on how to broaden the pool of applicants. Addressing those with financial needs and making all who apply feel the process has value beyond winning. *Roads Less Traveled and Other Perspectives on Nationally Competitive Scholarships* is a must for anyone advising students on scholarships.

Kenneth McEwin, John Swaim, 2007 **The History of College Affordability in the United States from Colonial Times to the Cold War** Thomas Adam, 2020-10-13 This book examines how tuition and student loans became an accepted part of college costs in the first half of the twentieth century. The author argues that college was largely free to nineteenth century college students since local and religious communities, donors and the state agreed to pay the tuition bill with the expectation that the students would serve society upon graduation. College education was essentially considered a public good. This arrangement ended after 1900. The increasing secularization and professionalization of college education as well as

changes in the socio economic composition of the student body which included more and more students from well off families caused educators college administrators and donors to argue that students pursued a college degree for their own advancement and therefore should be made to pay for it Students were expected to pay tuition themselves and to take out student loans in order to fund their education **The Athenaeum** ,1876 Report of the Comptroller for the Year Ended
