Leitão, 2023-05-08 We are entering into the next great world technological revolution The metaverse is a virtual world that replicates reality seeking to expand social connections In the very near future the boundaries between the physical and the virtual will slowly dissolve In the metaverse we will be able to go to work attend concerts meet friends study and do practically everything else we currently do in the physical world This book explores concepts reflections examples of use platforms applications devices new marketing techniques pedagogical activities and many other contents related to this new virtual world seeking to introduce education professionals to a subject that despite still being so controversial is extremely important for our understanding of the future

Tokens Rachel O'Dwyer, 2023-10-03 Longlisted for the FT Schrodgers Business Book of the Year Award 2023 A BEST BOOK OF THE YEAR GQ Los Angeles Times Wired Wherever you look money is being re placed by tokens Digital platforms are issuing new kinds of money like things phone credit shares gift vouchers game tokens customer data the list goes on But what does it mean when online platforms become the new banks What new types of control and discrimination emerge when money is tied to specific apps or actions politics or identities Tokens opens up this new and expanding world Exploring the history of extra monetary economies Rachel O Dwyer shows that private and grassroots tokens have always haunted the real economy But as the large tech platforms issue new money like instruments tokens are suddenly everywhere Amazon s Turk workers are getting paid in gift cards Online streamers trade in wishlists

Foreign remittances are sent via phone credit Bitcoin gift cards NFTs customer data and game tokens are the new money in an evolving economy It is a development challenging the balance of power between online empires and the state Tokens may offer a flexible even subversive route to compensation But for the platforms themselves they can be a means of amassing frightening new powers An essential read for anyone concerned with digital money inequality and the future of the economy
