Interactive media designers have been discussing modes to optimize interaction design beyond mere usability With the arrival of Emotional Design followed by the success of the User Experience UX approaches the discussion continued and augmented Experience has become a complex buzzword which is more about the subject's experience than the product and this is why it's difficult or even impossible to define it in a concise manner We propose to move the discussion from Experience towards Engagement to emphasize the design of the relationship between artefacts contexts and users Engagement asks for a more concrete type of experience with specific needs motives skills and competences which can be more clearly worked into the design of artefacts Engagement also differs from other concepts e.g. fun enjoyment happiness or well-being and is open enough to grant freedom to designers in creating their personal world views To push this new approach we offer in this book a full model for the design of engagement in interactive media still believing it can be applied beyond that The model is arranged around what we call the three engagement streams Progression Expression and Relation

New Directions in Childhood Studies Innocence Trauma and Agency in the

Twenty first Century acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of American childhood. The chapters in this collection examine contemporary children's literature, film and video games to explore the ways in which everyday realities like trauma, disaster and death impact the experience of childhood in America today. In many ways the essays show the narratives blur traditional lines between children's and adult content, taking children series as subjects while also guiding them through the processes of dealing with the particular challenges. Collectively the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture.
