**Playful Pedagogy in the Pandemic** Emily K. Johnson, Anastasia Salter, 2022-08-26 Educational technology adoption is more widespread than ever in the wake of COVID 19 as corporations have commodified student engagement in makeshift packages marketed as gamification This book seeks to create a space for playful learning in higher education asserting the need for a pedagogy of care and engagement as well as collaboration with students to help us reimagine education outside of prescriptive educational technology Virtual learning has turned the course management system into the classroom and business platforms for streaming video have become awkward substitutions for lecture and discussion Gaming once heralded as a potential tool for rethinking our relationship with educational technology is now inextricably linked in our collective understanding to challenges of misogyny white supremacy and the circulation of misinformation The initial promise of games based learning seems to linger only as

gamification a form of structuring that creates mechanisms and incentives but limits opportunity for play As higher education teeters on the brink of unprecedented crisis this book proclaims the urgent need to find a space for playful learning and to find new inspiration in the platforms and interventions of personal gaming and in turn restructure the corporatized surveilling classroom of a gamified world Through an in depth analysis of the challenges and opportunities presented by pandemic pedagogy this book reveals the conditions that led to the widespread failure of adoption of games based learning and offers a model of hope for a future driven by new tools and platforms for personal experimental game making as intellectual inquiry Graphic Horizons Luis Hermida González, João Pedro Xavier, Antonio Amado Lorenzo, Ángel J.

Fernández-Álvarez, 2024-03-27 This book reports on several advances in architectural graphics with a special emphasis on education training and architectural production It gathers a selection of contributions to the 20th International Congress of Architectural Graphic Expression EGA 2024 held on May 27 29 2024 in Porto Portugal with the motto Graphic Horizons This is the second of a 3 volume set *Handbook of Research on Promoting Economic and Social Development Through Serious Games* Bernardes, Oscar, Amorim, Vanessa, 2022-03-18

While gaming has become an increasingly popular leisure activity in society the success of the videogame market has also contributed to the application of serious games in many different contexts and most importantly for learning purposes This technological novelty is the basis for an innovative change in myriad environments such as education commerce marketing healthcare and many more It is of great import to understand these applications in order to improve organizational development The Handbook of Research on Promoting Economic and Social Development Through Serious Games provides reflection on the multidisciplinary applications of serious games This book contextualizes the importance of serious games in organizational and societal improvement Covering topics such as cultural heritage mental health and tourism this book is a dynamic resource for policymakers academicians interdisciplinary researchers graduate and post graduate students technology developers faculty of K 12 and higher education and government officials **The Metaverse** Matthew Ball, 2022-07-19 INTERNATIONAL BESTSELLER United States Canada
