Orlando (Vintage Classics Woolf Series) Virginia Woolf, 2016-10-06 WITH AN INTRODUCTION BY HELEN DUNMORE As his tale begins Orlando is a passionate young nobleman whose days are spent in rowdy revelry filled with the colourful delights of Queen Elizabeth's court. By the close he will have transformed into a modern 36 year old woman and three centuries will have passed. Orlando will not only witness the making of history from its edge but will find that his unique position as a woman who knows what it is to be a man will give him insight into matters of the heart. [Art, Sustainability and Learning Communities](#) Raphael Vella, Victoria Pavlou, 2023-09-26 By engaging with education, contemporary art and global sustainability goals this book connects the artistic way of communication with ecological obligations and social issues and promotes a sense of active citizenship. International empirical and curricular research presents a case for strong learning communities that take a clear political stand in favour of socially engaged art pedagogies. The main aim of is to show how shared spaces for exchange in the fields of art education and continuous professional development can reflect, inspire and integrate sustainability principles that are becoming crucial in today's world. The authors propose the idea that coordinated action can lead to a more sustainable future by promoting a sense of community, lifelong learning and confidence in the possibility of changing current conditions. Its three parts combine expertise in visual arts education, education for sustainable development, contemporary art practice and sustainability activism. While Part I focuses on literature in the field and the interrelation of different disciplines, Part II provides concrete examples of professional learning communities and pedagogies that can be used to enrich the field of art education. Finally, Part III presents brief case studies illustrating international projects by contemporary artists, curators, environmentalists and others providing educators with several inspirational models of concrete and creative action. Saint Petersburg Sinclair McKay, 2026-01-06 The epic story of the 900 days and nights of the Siege of Leningrad set within the history of the iconic city from Peter the Great to Vladimir Putin. In the crucible of World War II, Saint Petersburg, then known as Leningrad, stands as a testament to human endurance. As the Nazis encircle the city intent on annihilating its 1.5 million inhabitants, the narrative plunges into the harrowing nine hundred days and nights of relentless hardship and unyielding resilience. Starving residents, horrified by their own gaunt reflections, resort to bulking bread with wood shavings, consuming wallpaper paste, and even turning to their pets. Workers at the mass crematorium numb their horror with extra vodka rations. Yet amid this suffering, the resilience of culture and hope shines through, with orchestras and theatres defiantly continuing their performances, a flicker of humanity against the backdrop of despair. This book not only chronicles the Siege of Leningrad but also traces the pivotal importance of Saint Petersburg across the centuries. From Peter the Great's visionary founding of the city through its revolutionary rebirth as Petrograd and its Soviet identity as Leningrad to its renaissance as Saint Petersburg in the post-Soviet era, we explore the layers of history that shape this extraordinary place. Descendants of Waverley Martha F. Bowden,2016-08-11 Descendants of Waverley examines contemporary novelists combination of historical authority and narrative art to create authentic and accessible depictions of the past This technique the romance of history challenges conventional theories that the novel as a genre erased the romance Individual chapters

establish the critical framework analyze the strategies that authors use to romance history and demonstrate the subgenres that exist in current historical fiction While the author does not consider Walter Scott to be the inventor of historical fiction she demonstrates the ways in which contemporary fiction's techniques reflect the form of the genre that Scott both developed and theorized in the Waverley novels 1814-1832 In writing his historical romances Scott drew on the forms of the fictions that preceded his work especially Gothic fiction and was influenced by the fluid definitions of romance that permeated the theorizing of the novel and its development in the eighteenth century where fiction was described as evolving from and replacing romances and referred to as romances themselves She begins by tracing this history and moves on to discuss contemporary fiction both as technique in the uses of intertextuality and in as form in the increasing hybridity of contemporary fiction This hybridity is reflected in such forms as the historical detective novel the embedded narrative and the biographical novel the pedagogical elements inherent in the historical novel before Scott's oeuvre continue into the present The book ends with the recent phenomenon of historical fantasy in this subgenre the traits of more conventional historical fiction such as intertextuality and the tension between the familiar and strange combine with a playful form of fantasy that releases revenants among the Luddites and wizards into the Battle of Waterloo John Frow's theory of the slipperiness of genre is a critical component for explicating the most recent metamorphoses of historical fiction The critical framework also develops from recent and eighteenth century histories of the novel twentieth and twenty first century theories of Scott's influence and contemporary writers own reflections on what they do when they write historical novels
