Ortlos Architecture Of The Networks:

ORTLOS ORTLOS Architects, 2005 Founded in 1998 Ortlos is a virtual office which deals with architectural topics urban planning issues and interface design in general This book looks at a dozen projects dating from 2000 to 2003 which come from the virtual office

Disappearing Architecture Georg Flachbart, Peter Weibel, 2005-09-09 The creation of new environments through the use of developments in Information Technology is significantly altering not only architecture itself but also the roles and tasks of the architects Architecture can no longer be described in the terms we are familiar with since it no longer corresponds to the form of architecture as we know it an inclusive and exclusive structure clearly defined with a single interior and a single exterior For architects the challenge of the future will increasingly lie in creatively coming to terms with hybrid environments understanding and exploiting the design potential of digital spaces within the physical world and redefining the role of architecture within a visually dominated culture This volume presents a valuable and attractive contribution to the contemporary discussion on this subject

A Design Space for Pervasive Advertising on Public Displays Florian Alt, 2013-03-01 Today people living in cities see up to 5000 ads per day many on public displays More and more of these public displays are networked and equipped with sensors making them part of a global infrastructure that is currently emerging Such displays provide the opportunity to create a benefit for society in the form of immersive experiences and relevant content In this way they can overcome the display blindness that evolved over the years Two main reasons prevent this vision from coming true first public displays are stuck with traditional advertising as the driving business model Second

no common ground exists for researchers or advertisers that outline important challenges The main contribution of this thesis is presenting a design space for advertising on public displays that identifies important challenges mainly from an HCI perspective The results are envisioned to provide a basis for future research and for practitioners to shape future advertisements on public displays in a positive way
