Ferrare, 2015-04-10 Mapping Corporate Education Reform outlines and analyzes the complex relationships between policy actors that define education reform within the current neoliberal context Using social network analysis and powerful data visualization tools the authors identify the problematic roots of these relationships and describe their effects both in the U.S. and abroad Through a series of case studies each chapter reveals how powerful actors from billionaire philanthropists to multinational education corporations leverage their resources to implement free market mechanisms within public education By comprehensively connecting the dots of neoliberal education reforms the authors reveal not only the details of the reforms themselves but the relationships that
